Legal

# **Legal Information**

Important legal information can be accessed in writing, on the mobile device, or at: <a href="mailto:samsung.com">samsung.com</a>

#### READ THIS INFORMATION BEFORE USING YOUR MOBILE DEVICE.

Samsung Limited Warranty - This product is covered under the applicable Samsung Limited Warranty INCLUDING THE DISPUTE RESOLUTION PROCEDURE FOR WARRANTY AND OTHER CLAIMS, and your right to opt out of arbitration within 30 calendar days of the first consumer purchase. You may opt out by either sending an email to <a href="mailto:optout@sea.samsung.com">optout@sea.samsung.com</a> with the subject line "Arbitration Opt Out" or by calling 1-800-SAMSUNG (726-7864). For more detailed procedures, please refer to the "Dispute Resolution Procedures and Arbitration and Opt Out" section of the Limited Warranty.

#### Health & Safety and Warranty

Full written terms and detailed information about the warranty and obtaining service are available on the device at: **Settings** > **About device** > **Legal information** > **Samsung legal**.

You may also access the online version for your device at:

#### PHONE

English: samsung.com/us/Legal/Phone-HSGuide

Spanish: samsung.com/us/Legal/Phone-HSGuide-SP

#### **TABLET**

English: samsung.com/us/Legal/Tablet-HSGuide

Spanish: samsung.com/us/Legal/Tablet-HSGuide-SP

#### End User License Agreement for Software (EULA)

The online version of the End User License Agreement (EULA) for your device can be found online at: samsung.com/us/Legal/SamsungLegal-EULA4

# Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG Phone, including but not limited to, accessories, parts, or software relating thereto (the "Phone System"), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship.

You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

### **Open Source Software**

Some software components of this product, including but not limited to 'PowerTOP' and 'e2fsprogs', incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: <a href="mailto:opensource.samsung.com">opensource.samsung.com</a>

# Disclaimer of Warranties; Exclusion of Liability

The information below explains that a user accepts this device as sold, including the hardware and software components as created and packaged for sale. If the user changes these parameters through a unique modification, Samsung will not be held responsible for damages or issues that result from these end-user changes.

Except as set forth in the express warranty contained on the warranty page enclosed with the product, the purchaser takes the product "as is", and Samsung makes no express or implied warranty of any kind whatsoever with respect to the product, including but not limited to the:

- merchantability of the product or its fitness for any particular purpose or use;
- design, condition or quality of the product;
- performance of the product;

- workmanship of the product or the components contained therein; or
- compliance of the product with the requirements of any law, rule, specification or contract pertaining thereto.

Nothing contained in the instruction manual shall be construed to create an express or implied warranty of any kind whatsoever with respect to the product. In addition, Samsung shall not be liable for any damages of any kind resulting from the purchase or use of the product or arising from the breach of the express warranty, including incidental, special or consequential damages, or loss of anticipated profits or benefits.

#### Modification of Software

Samsung is not liable for performance issues or incompatibilities caused by your editing of registry settings, or your modification of Operating System (OS) software.

Using custom OS software may cause your device and applications to work improperly. Your carrier may not permit users to download certain software, such as custom OS.

# Samsung Knox

Samsung Knox is Samsung's security platform and is a mark for a Samsung device tested for security with enterprise use in mind. Additional licensing fee may be required. For more information about Knox, please refer to: <a href="mailto:samsung.com/us/knox">samsung.com/us/knox</a>

# Restricting Children's Access to Your Mobile Device

Your device is not a toy. Do not allow children to play with it because they could hurt themselves and others, damage the device, or make calls that increase your device bill. Keep the device and all its parts and accessories out of the reach of small children.

# Samsung Electronics America, Inc.

Address: 85 Challenger Road Ridgefield Park, New Jersey 07660

Phone: 1-800-SAMSUNG (726-7864)

Internet: samsung.com

©2017 Samsung Electronics America, Inc.

Samsung, Samsung Galaxy, and Smart Switch are all trademarks of Samsung Electronics Co., Ltd.

Other marks are the property of their respective owners.

Some multimedia (audio/video) files contain Digital Rights Management (DRM) technology to verify you have the right to use the files. Preloaded apps on your device may not be compatible with DRM-protected files.

Screen images are simulated. Appearance of device may vary.

The actual available capacity of the internal memory is less than the specified capacity because the operating system and default applications occupy part of the memory. The available capacity may change when you upgrade the device.

# Set Up Your Device

Learn how to set up your device for the first time.

# **Assemble Your Device**

This section helps you to assemble your device.

## Remove the Back Cover

1. Remove the back cover.

2. Lift the cover up and to the left of the device.

**Caution**: When removing the back cover, use the slot next to the Volume key to gently lift the cover off. Pulling on the Speaker (located next to the Power button) may cause damage.

**Warning**: Do not bend or twist the back cover excessively. Using excessive force on the cover during removal or installation of an internal component can cause the material to break.

### Install the SIM Card

Your phone comes with the SIM card already installed. If you need to replace your SIM card, follow these steps.

When you subscribe to a cellular network, you are provided with a plug-in SIM card. During activation, your SIM card is loaded with your subscription details, such as your Personal Identification Number (PIN), available optional services, and other features.

**Warning**: Please be careful when handling the SIM card to avoid damaging it. Keep all SIM cards out of reach of small children.

- ► Carefully slide the SIM card into the SIM card slot.
  - Make sure that the card's gold contacts face down into the device and that the card is positioned as shown.

# Install an Optional Memory Card

You can install a microSD™ or microSDHC™ memory card (not included) to add more memory space to your device.

A memory card can be installed at any time. It is not necessary to install it prior to using the device.

 Slide the memory card into the slot with the gold contacts facing down.

# **Install the Battery**

The battery is installed in the back of the device.

 Insert the battery into the opening on the back of the device, making sure the connectors align.

2. Gently press down to secure the battery.

# Replace the Back Cover

The back cover should be replaced before using the device.

1. Place the back cover onto the back of the device and press down.

Press along the edge of the back cover until you have a secure seal.

# Charge the Battery

Your device is powered by a rechargeable, standard Li-Ion battery. A USB charger (charging head and USB cable) is included with the device for charging the battery from any standard outlet.

The battery comes partially charged. You can use the device while charging.

1. Insert the USB cable into the USB charger/Accessory port.

**Caution**: Use only charging devices and batteries approved by Samsung. Samsung accessories are designed for your device to maximize battery life. Using other accessories may void your warranty and may cause damage.

- Connect the USB cable to the charging head, and then plug the charging head into a standard outlet.
- Unplug the charging head from the outlet and remove the USB cable from the device when charging is complete.

## When to Charge the Battery

When the battery is low and only a few minutes of operation remain, the device sounds a warning tone at regular intervals.

In this condition, your device conserves its remaining battery power by dimming the screen.

When the battery level becomes too low, the device automatically turns off.

For a quick check of your battery level:

 View the battery charge indicator located in the top right corner of your device's display. A solid color ( ) indicates a full charge.

You can also choose to display a percentage value. Viewing a percentage value can provide a better idea of the remaining charge on the battery. For more information, see <u>"Battery" on page 160</u>.

While charging, the device and the charger may become hot when using wireless charging or fast charging. This does not affect the device's lifespan or performance and is in the device's normal range of operation.

The charger may stop charging if the battery becomes too hot.

If the device heats up while charging the battery:

- Disconnect the charger from the device and close any running apps.
- Wait for the device to cool down, and then begin charging the device again.
  - If the lower part of the device overheats, check for damage to the connected USB cable. Replace the damaged USB cable with a new Samsung-approved cable.
  - If using a wireless charger, do not place foreign materials between the device and the wireless charger.

# **Start Using Your Device**

### Turn Your Device On or Off

The instructions below explain how to turn your device on or off.

#### To turn the device on:

▶ Press and hold the **Power** key until the device turns on.

#### To turn the device off:

- Press and hold the **Power** key until the Device options menu is displayed.
- 2. Tap Power off, and confirm if prompted.

#### Restart the Device

If your device stops responding to taps or finger gestures and you are unable to turn it off, you can restart your device.

Press and hold the Power key and the Volume down key at the same time for more than seven seconds.

## Lock or Unlock Your Device

Use your device's screen lock features to secure your device.

By default, the device locks automatically when the screen times out.

#### To lock the device:

► Press the **Power** key.

The default Screen lock on your device is Swipe. To choose a more secure screen lock, see "Set a Screen Lock" on page 172.

#### To unlock the device:

► Press the **Power** key or **Home** key, and then drag your finger across the screen.

# **Set Up Your Device**

# Use the Set Up Wizard

The first time you turn your device on, a Welcome screen is displayed. It guides you through the basics of setting up your device.

Follow the prompts to choose a default language, connect to a Wi-Fi $^{\circ}$  network, set up accounts, choose location services, learn about your device's features, and more.

Voice Assistant provides voice prompts and descriptions of items on the screen to improve accessibility. During setup, you can enable or disable Voice Assistant by pressing the **Home** key quickly three times.

#### Google Account

Your new device uses your Google™ Account to fully utilize its Android™ features, including Gmail™, Google Duo, and the Google Play™ store.

When you turn on your device for the first time, set up your existing Google Account or create a new Google Account.

– or –

To create a new Google Account or set up your Google Account on your device at any time, use Accounts settings. For more information, see "Accounts" on page 181.

- 2. Tap Cloud and accounts > Accounts.
- 3. Tap + Add account > Google.

#### **Factory Reset Protection**

When you sign in to a Google Account on your device, Factory Reset Protection is turned on. Factory Reset Protection (FRP) prevents other people from using your device if it is reset to factory settings without your permission. For example, if your device is lost or stolen and a factory data reset is performed, only someone with your Google Account username and password can use the device.

You will not be able to access the device after a factory data reset if you do not have your Google Account username and password. For more information, see "Factory Data Reset" on page 169.

**Caution**: Before shipping your device back to Samsung or taking it to your nearest Samsung-authorized service center, you should remove your Google Account before resetting the device back to factory settings. For more information, visit: <a href="mailto:samsung.com/us/support/frp">samsung.com/us/support/frp</a>

#### **Enable Factory Reset Protection**

Adding a Google Account to your device automatically turns on the Factory Reset Protection (FRP) security feature. For more information, see <a href="mailto:google.com">google.com</a>.

#### **Disable Factory Reset Protection**

To disable FRP, remove all Google Accounts from the device.

- 1. From a Home screen, tap III Apps > Settings.
- 2. Tap Cloud and accounts > Accounts > Google.
  - If you have more than one Google Account set up on your device, tap the Google Account you want to remove.
- 3. Tap : More options > Remove account.

### Samsung Account

Create a Samsung account for access to Samsung content and apps on your device. When you turn on your device for the first time, set up your existing Samsung account or create a new Samsung account.

- or -

To create a new Samsung account or set up your Samsung account on your device at any time, use Accounts settings. For more information, see "Accounts" on page 181.

- 2. Tap Cloud and accounts > Accounts.
- 3. Tap + Add account > Samsung account.

#### **Email**

Use the Email app to view and manage all your email accounts in one app.

When you turn on your device for the first time, set up your existing email account or create a new email account.

– or –

To create a new email account or set up your email account on your device at any time, use Accounts settings. For more information, see "Accounts" on page 181.

- 2. Tap Cloud and accounts > Accounts.
- 3. Tap + Add account > Email.

For more information on using Email, see "Email" on page 82.

# Transfer Data from Your Old Device

### Samsung Smart Switch

Get started today at samsungsmartswitch.com.

# Set Up Voicemail

You can access your voicemail from a Home screen.

- From the Home screen, tap Phone, and then touch and hold the 1 1 key.
- Follow the tutorial to create a password, record a greeting, and record your name.

For more information on voicemail, see "Voicemail" on page 118.

# Learn About Your Device

Learn some of the key features of your mobile device, including the screens and icons, as well as how to navigate the device and enter text using the keyboard.

# **Front View**

### Proximity sensor

- Turns off the screen and disables touch functionality when the device is in close proximity to the human body.
- Turns the screen back on and enables touch functionality when the device is outside a specific range to the human body.

### Power key

- Briefly press to turn on or off the screen.
- Press and hold to select a power control option.

### Home key

- Press and hold to launch Google.
- Gently put your finger on the key when you want to unlock the screen with your fingerprint.
- Press twice to launch the camera.

### Volume keys

- Adjust the volume for ringtones, calls or notifications.
- Gently press a volume key to take a photo.

# **Back View**

# **Home Screen**

### **Status Bar**

The Status bar at the top of the Home screen provides device information (such as network status, battery charge, and time) on the right side and notification alerts on the left.

### **Notifications**

### View the Notification Panel

You can access the Notification panel from any Home screen.

- 1. Drag the Status bar down to display the Notification panel.
- 2. Swipe down the list to see notification details.
  - To open an item, tap it.
  - To clear a single notification, drag the notification left or right.
  - To clear all notifications, tap Clear.
- Drag upward from the bottom of the screen or tap Back to close the Notification panel.

### **Quick Settings**

In addition to notifications, the Notification panel also provides quick access to device functions such as Wi-Fi, allowing you to quickly turn them on or off.

To view additional Quick settings and customize the Quick settings that display:

- 1. Drag the Status bar down to display the Notification panel.
- 2. Drag = View all downward.
- 3. Tap a setting to turn it on or off.
- 4. Touch and hold a setting to edit the Quick settings panel.
- 5. Tap **Done** when finished.

### **Customize Your Home Screen**

### App Shortcuts

You can use app shortcuts to launch an app from any Home screen.

#### To add a shortcut:

- Touch and hold an app shortcut, drag it to a Home screen, and then release it.

#### To remove a shortcut:

- 1. Touch and hold an app shortcut to release it.
- 2. Drag the app shortcut to **TREMOVE** and release it.
  - Removing a shortcut does not delete the app, it just removes the shortcut from the Home screen.

#### To move a shortcut from one Home screen to another.

- 1. Touch and hold an app shortcut to release it.
- 2. Drag the app shortcut to Move apps and release it.
- 3. Swipe to a new Home screen.
- 4. Tap the shortcut to place it in the next available location, or drag it to a specific location and release it.

# Widgets

Widgets are simple application extensions that run on a Home screen. There are many kinds of widgets, including links to a specific contact, Internet bookmarks, Gmail and email accounts, and many others.

### To add a widget to a Home screen:

- 1. From a Home screen, pinch the screen.
- 2. Tap Widgets.
- 3. Touch and hold a widget, drag it to a Home screen, and release it.

### To remove a widget:

- 1. From a Home screen, touch and hold a widget to release it.
- 2. Drag the widget to in Remove and release it.
  - Removing a widget does not delete the widget, it just removes the widget from the Home screen.

### **Folders**

Place folders on a Home screen to organize items.

#### Create a Folder

You can create an app folder on a Home screen.

- From a Home screen, touch and hold an app shortcut and drag it on top of another app shortcut until a highlighted box appears.
- 2. Release the app shortcut to create the folder.
  - Enter folder name: Enter a name for the folder.

- **Palette**: Change the color.
- Add: Place more apps in the folder. Tap apps to select them, and then tap Add.
- 3. Tap anywhere outside of the folder to close it.
  - To add more apps, touch and hold an app shortcut and drag it to the folder.

### Remove a Folder from a Home Screen

You can remove a folder that you added to a Home screen.

- 1. Touch and hold the folder until it detaches.
- Drag the folder to Remove and release it. Confirm when prompted.

### Screen Grid

Change the number of icons that can be placed on each Home screen by changing the Screen grid dimensions.

- 1. From a Home screen, pinch the screen.
- Tap Screen grid.
- Tap a dimension option (4 x 4, 4 x 5, or 5 x 5) to preview its appearance. The numbers indicate how many icons can be placed horizontally by how many icons can be placed vertically.
- 4. Tap **Apply** to apply the selected dimensions.

### Wallpapers and Themes

Set visual themes for all system screens and icons on your device. Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.

- 1. From a Home screen, pinch the screen.
- 2. Tap **Wallpapers and themes** to customize.

For more information, see "Wallpapers and Themes" on page 156.

### Screens

Your device comes with multiple Home screens to hold app shortcuts and widgets. You can add, remove, change the order of screens, as well as choose a different main Home screen.

- 1. From a Home screen, pinch the screen.
- 2. Use these options to manage screens:

  - Set a screen as the main Home screen: Tap Main Home screen at the top of a screen. This screen is displayed when you press the Home key.
  - Change the order of screens: Touch and hold a screen, and then drag it to a new position.

# **Navigation**

Learn the basics for how to navigate through your device.

# **Touchscreen Navigation**

Please note that a touch screen responds best to a light touch from the pad of your finger or a capacitive stylus. Using excessive force or a metallic object on the touch screen may damage the tempered glass surface and void the warranty.

Use the following motions and gestures on your touchscreen to navigate the device:

# Tap

Lightly tap items to select or launch them.

- Tap the keyboard to enter characters or text.
- Tap an item to select it.
- Tap an app shortcut to launch the application.

# Double-Tap

Lightly tap items twice to select or launch them.

Double-tap an image to zoom in or out.

### Touch and Hold

Touch and hold items on the screen to activate them.

- Touch and hold a widget on a Home screen to move it.
- Touch and hold a field to display a pop-up menu of options.

# **Swipe**

Lightly drag your finger vertically or horizontally across the screen.

- Swipe the screen to unlock the device.
- Swipe the screen to scroll through the Home screens or menu options.

# Drag

Touch and hold an item, and then move it to a new location.

- Drag an app shortcut to add it to a Home screen.
- Drag a widget to place it in a new location on a Home screen.

# Pinch and Spread

Pinch the screen using your thumb and forefinger or spread by moving your fingers apart.

- Pinch the screen to zoom out while viewing a picture or a web page.
- Spread your fingers on the screen to zoom in while viewing a picture or a web page.

# **Common Options**

The device uses basic command options to perform common actions.

- More options: Tap to view more menu options for a screen. This
  often allows you to select items to delete or share.
- Delete: Tap to select items to delete.
- Share: Tap to select items to share, and then choose a sharing method.
- Edit: Tap to customize the screen.
- On/Off: Tap to turn the option on ( ) or off ( ).
- Checkbox: Tap to enable or select. When enabled, a checkmark
  is displayed. You can often tap a checkbox at the top of the screen
  to select all.
- Menu: Tap to view available options for the field.

# **Entering Text**

Text can be entered using a keyboard or by speaking.

# Use the Samsung Keyboard

Enter text using a QWERTY keyboard.

### Special Keys

Sym Symbol: Tap to insert symbols.

Touch and hold **Options** for the following:

**Voice input**: Enter text using Google Voice™ typing.

**Emoticon**: Insert an emoticon at the cursor position.

**Keyboard settings**: Access keyboard settings.

### **Predictive Text**

Predictive text suggests words that match your text entries, and can automatically complete common words. Predictive text can learn your personal writing style from your contacts, messages, email, and social networking sites — improving the accuracy of predicting text entries.

### Configure the Samsung Keyboard

To customize the Samsung keyboard:

- Tap General management > Language and input > Samsung keyboard for options.
  - Languages and types: Set the keyboard type and choose which languages are available on the keyboard. To switch between languages, slide the Space bar sideways.
  - Predictive text: Predictive text suggests words that match your text entries, and can automatically complete common words. Predictive text can learn your personal writing style from your contacts, messages, Gmail, and social networking sites — improving its accuracy of predicting your text entries.
  - Additional keyboard settings provide assistance with capitalization, punctuation, and much more.

# **Use Google Voice Typing**

Instead of typing, enter text by speaking.

To enable Google voice typing:

- Tap Voice input on the Samsung keyboard.
  - You may need to touch and hold Options (left of the Space bar) to find it.
- 2. Speak your text.

To download additional languages for use with Google voice typing:

► Tap **Settings** > Languages.

### Configure Google Voice Typing

To customize Google voice typing:

- From a Home screen, tap (III) Apps > (IV) Settings.
- Tap General management > Language and input > Google voice typing for options.
  - Languages: Select languages for Google voice typing.
  - "Ok Google" detection: Launch a Google search whenever you say "OK Google".
  - Hands-free: Allow requests with the device locked.
  - **Speech output**: Select options for spoken feedback.
  - Offline speech recognition: Download and install speech recognition engines, allowing you to use voice input while not connected to the network.
  - Block offensive words: Hide search results that contain offensive words.
  - Bluetooth headset: Use audio input from a Bluetooth headset (not included) if one is connected.

# **Emergency Mode**

Emergency mode conserves your device's remaining power when you are in an emergency situation.

Emergency mode saves battery power by:

- Restricting application usage to only essential applications and those you select.
- Turning off Mobile data when the screen is off.
- Turning off connectivity features such as Wi-Fi and Bluetooth®.

# **Activate Emergency Mode**

To activate Emergency mode:

- Press and hold the **Power** key to display the Device options window.
- 2. Tap Emergency mode.
  - When accessing for the first time, read the Terms and conditions. If you accept them, tap the Checkbox, and then tap Agree. Confirm when prompted.
- 3. Tap Turn on.

# Turn Off Emergency Mode

After Emergency mode is turned off, the Location settings may stay the same as they were in Emergency mode.

 From the Emergency mode Home screen, tap : More options > Turn off Emergency mode.

# **Use Emergency Mode Features**

While in Emergency mode, your device conserves power. The following apps and features are available on the Home screen:

- Flashlight: Use the device's flash as a steady source of light.
- Emergency alarm: Sound an audible siren.
- Share my location: Send your location information to your emergency contacts.
- Phone: Launch the call screen.
- Internet: Launch the Web browser.
- Add: Add other available apps.
  - Facebook: Launch Facebook™.
  - Maps: Launch Google Maps<sup>™</sup>.
- Battery charge: Display estimated battery charge remaining.
- Estimated usage time remaining: Display estimated standby time that can be reached based on current battery charge and usage.

 Emergency call: Dial the emergency telephone number (for example, 911). This kind of call can be made even without activated cellular service.

### • More options:

- Turn off Emergency mode: Disable Emergency mode and return to standard mode.
- **Remove**: Choose apps to remove from the screen.
- Manage emergency contacts: Manage your medical profile and ICE (In Case of Emergency) group contacts.
- Settings: Configure the available settings. Only a limited number of settings are enabled in Emergency mode.

# **Apps**

Learn how to change the way apps are displayed, organize apps into folders, and uninstall or disable apps.

# **Using Apps**

The Apps list displays all preloaded apps and apps that you downloaded. You can uninstall, disable, or hide apps from view.

# **Access Apps**

You can access and launch all applications from the Apps list.

- 1. From a Home screen, tap **Apps**.
- 2. Tap an app's shortcut to launch it.
  - To return to the main Home screen, press the Home key.

# **Download and Install Apps**

Find new apps to download and install on your device.

- Play Store: Download new apps from the Google Play store.
   Visit play.qoogle.com/store/apps to learn more.
- Galaxy Apps: View and download Samsung apps that are optimized for use with Galaxy devices.
   Visit <u>samsung.com/levant/apps/mobile/galaxyapps</u> to learn more.

# **Uninstall or Disable Apps**

You can uninstall or disable apps you download and install.

- Preloaded apps cannot be uninstalled.
- Apps that are disabled are turned off and hidden from view.

### To uninstall or disable an app:

- 1. From a Home screen, tap **Apps**.
- Tap : More options > Edit. Apps that can be uninstalled or disabled display — Uninstall/disable on their shortcut.
- Tap Uninstall/disable and follow the prompts to either uninstall or disable the app.
- 4. Tap **Done** when finished.

### To enable apps after disabling them:

- From a Home screen, tap Apps > Settings.
- 2. Tap **Applications**.
- 3. Tap **Menu** > **Disabled**, and then tap the app you want to enable.
- 4. Tap **Enable**. The app is displayed again in the Apps list.

# **Organize Apps**

### Arrange the Order

App shortcuts can be listed alphabetically or in your own custom order.

To change the order apps are listed:

- 1. From a Home screen, tap | Apps > More options > Edit.
- Touch and hold an app shortcut or folder, and then drag it to a new location.
- 3. Tap **Done** when finished.

To alphabetize your apps:

- From a Home screen, tap Apps > More options > Sort.
- 2. Tap Alphabetical order.

### **Use Folders**

You can organize App shortcuts in a folder on an Apps list screen.

- From a Home screen, tap Apps > More options > Edit.
- 2. Touch and hold an app shortcut, and then drag it on top of another app shortcut until a highlighted box is displayed.
- 3. Release the app shortcut to create the folder.
  - Enter folder name: Name the folder.
  - Palette: Change the folder color.
  - Add application: Place more apps in the folder. Tap apps to select them, and then tap Add.

- 4. Tap anywhere outside of the folder to close it.
  - To add more apps, touch and hold an app shortcut and drag it to the folder.
- 5. Tap **Done** when finished.

### To launch apps in a folder:

► Tap a folder, and then tap an app shortcut to launch it.

### To delete a folder:

- 1. From a Home screen, tap | Apps > More options > Edit.
- Tap the folder to delete, and then tap Remove folder. Confirm when prompted.
- 3. Tap **Done** when finished.

#### To add a folder to a Home screen:

- 1. From a Home screen, tap **Apps**.
- 2. Touch and hold a folder, drag it to a Home screen, and then release it.

# **1Weather**

1Weather lets you receive real-time local weather information at any location in the world. Access 7-day and hourly weather forecasts for your area.

► From a Home screen, tap **■ Apps** > ■ **1Weather**.

Visit 1weatherapp.com to learn more.

# **AppFinder**

AppFinder helps you discover and enjoy great apps and games for your device.

► From a Home screen, tap : Apps > AppFinder.

# Calculator

The Calculator provides basic and advanced arithmetic functions.

# **Basic Operation**

You can use your calculator to perform basic operations.

- 1. From a Home screen, tap III Apps > (III Calculator.
- Enter the first number using the numeric keys, tap the appropriate arithmetic function key, and enter the next number.
- 3. Tap **Equals** to view the result.
- 4. Tap Clear to clear the results.

### Additional Functions

You can perform additional functions on your calculator.

To clear the calculator history:

► Tap History > Clear history.

– or –

Tap Keypad to return to the calculator keys.

To copy all or part of the calculation to the clipboard:

► Touch and hold an entry in the display field, and then tap ☐ Copy.

### Scientific Calculator

The Calculator app also provides advanced arithmetic functions.

To use the Scientific calculator:

▶ If Auto rotate is enabled, turn the device to landscape.

- or -

If Portrait is enabled, tap 🚫 **Rotate screen**.

**Note: Auto rotate** and **Portrait** are found in the Quick settings on the Notification panel. For more information, see "Notifications" on page 34.

# Calendar

Manage your events and tasks.

### Calendar View

To choose a calendar view:

- 1. From a Home screen, tap III Apps > 8 Calendar.
- 2. Tap **View**, and then tap one of the following:
  - Year: Display all twelve months of this year. Swipe across the screen to display another year.
  - Month: Display the current month. Swipe across the screen to display another month. Events and tasks are also displayed.
  - Week: Display the current week. Swipe across the screen to display another week.
  - Day: Display today's schedule by hour. Swipe across the screen to display another day.
  - Tasks: Display all tasks.
- 3. Tap **Today** to return to the current date.

### Create an Event

You can use your Calendar to create events.

- 1. From a Home screen, tap III Apps > To Calendar.
- 2. Tap Add to add an event.
- 3. Enter details for the event, and then tap **Save**.

### Share an Event

You can share events you create from your Calendar.

- 1. From a Home screen, tap **Apps** > **Calendar**.
- 2. Tap an event to view it, and then tap again to edit it.
- 3. Tap **Share**, choose a sharing method, and follow the prompts.

### **Delete an Event**

You can delete events you create from your Calendar.

- 1. From a Home screen, tap III Apps > 
  Calendar.
- 2. Tap an event to view it, and then tap again to edit it.
- 3. Tap **Delete**. Confirm when prompted.

### Create a Task

You can use your Calendar to create tasks. Tasks are items you add to the calendar to be accomplished on a certain day. A task appears as a checklist item and is removed once you mark the task as complete.

- 1. From a Home screen, tap | Apps > 3 Calendar.
- Tap View > Tasks.
- 3. Tap the **Enter new task** field to enter a new task.
- 4. You can choose to set the task for **Today**, **Tomorrow**, or tap **Expand** to set the following options:
  - **Set date**: Choose a date on the calendar for the task.
  - My tasks: Change the calendar on which the task is saved. You
    can change the task to an event by tapping My calendars.
  - Reminder: Set a reminder alert.
  - **Notes**: Save a note with your task.
  - Priority: Assign a priority to the task.
- 5. Tap **Save** to save the task.

### Delete a Task

You can delete tasks you create from your Calendar.

- Tap a day on the calendar to view the tasks for the day, or tap View > Tasks.
- 3. Tap the Checkbox by the task to mark it as complete and remove it from the calendar.
  - To delete the task permanently, tap the task to open it, and then tap **Delete**. Confirm when prompted.

# **Calendar Settings**

These settings allow you to modify settings associated with using the Calendar.

- 1. From a Home screen, tap III Apps > 8 Calendar.
- 2. Tap : More options > Settings.
- 3. Tap an option and follow the prompts.

# Camera and Video

### Take Pictures

Take pictures with your device's front or rear camera.

- From a Home screen, tap (III) Apps > (IV) Camera.
- 2. Using the display screen as a viewfinder, compose your shot by aiming the camera at the subject. While composing your picture, use the available options or these gestures:
  - To focus the shot, tap the screen. When you tap the screen, a brightness scale is displayed. Slide the light bulb up or down to adjust the brightness.
  - To add an effects filter, swipe to the left and tap a preview filter to apply it to the screen.
  - To add a shooting mode, swipe to the right and select a mode.
  - To quickly switch between the front and rear cameras, swipe the screen up or down.
  - To add a camera setting, tap a Quick settings icon or Settings.
- 3. Tap **a Take a picture** to take the picture.

## Record Videos

Record high-quality videos using your phone's video camera.

If you have an SD card installed, pictures and videos are stored to the SD card. If no card is installed, pictures and videos are saved to your phone's memory.

- 1. From a Home screen, tap 🎟 Apps > 🌘 Camera.
- 2. Aim the camera at your subject, and then tap Record.
- 3. The following actions are available:
  - Tap Capture to take a picture while recording.
  - Tap Pause to pause recording.
  - Tap **Resume** to resume recording.
  - Tap **Stop** to stop recording.

# **Configure Shooting Mode**

Several visual effects are available. Some modes are not available when taking self-portraits.

- 1. From a Home screen, tap **Apps** > **Camera**.
- 2. Swipe to the right for the Mode options. Each section indicates which camera (front or rear) the modes are available for.

#### Rear camera

- Auto: Allow the camera to evaluate the surroundings and determine the ideal mode for the picture.
- Pro: Manually adjust the ISO sensitivity, exposure value, white balance, and color tone while taking pictures.

- Panorama: Create a linear image by taking pictures in either a horizontal or vertical direction.
- Continuous shot: Touch and hold the Camera button to take pictures continuously.
- Sports: Take clearer pictures of fast moving subjects.

### Front camera

 Selfie: Take selfie shots and apply various effects, such as an airbrushed effect.

### Common

- Sound & shot: Enrich your pictures by adding a few seconds of background sound.
- More options: See more options for the camera modes.

# Share Pictures and Videos

The Gallery application lets you share pictures and videos on your social networks and messaging apps. You can also send them to another phone or your computer using Bluetooth.

For more information, see "Share Pictures and Videos" on page 91.

# **Camera Settings**

You can adjust your camera's settings using the icons on the main camera screen and the full camera settings menu.

- From a Home screen, tap (III) Apps > (III) Camera.
- Tap Settings to configure settings for the Camera. Available options vary depending on the camera or recording mode used.

### Rear camera

- Picture size: Select a resolution. Use higher resolution for higher quality. Higher resolution pictures take up more memory.
- Video size: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.

### Front camera

- Picture size: Select a resolution. Use higher resolution for higher quality. Higher resolution pictures take up more memory.
- Video size: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.
- Save pictures as previewed: Save the self-portrait or self-recording as viewed on the camera screen, not as flipped images.
- Ways to take pictures:
  - Tap to take pictures: Tap the screen to take selfies.
  - Gesture control: Detect your palm and automatically take a picture two seconds later.

#### Common

- Timer: Take time-delayed pictures or videos.
- Grid lines: Display viewfinder grid lines to help composition when selecting subjects.
- Location tags: Attach a GPS location tag to the picture.
- **Review pictures**: Set to show pictures after taking them.
- Quick launch: Open camera by pressing the Home key twice in quick succession.
- Storage location: Select the memory location for storage. This
  option only appears if an optional memory card (not included)
  is installed.
- Volume key function: Use the Volume key as the camera key, the record key, or for system volume.
- Shutter sound: Enable or disable a shutter sound when pictures are taken.
- Reset settings: Reset the camera settings.

# Clock

The Clock app offers features for keeping track of time and setting alarms.

- From a Home screen, tap 
   Apps > 
   Clock.
- 2. Tap a tab to use a feature:
  - Alarm: Set an alarm to ring at a specific time.
  - World clock: View the time of day or night in other parts of the world. World clock displays time in hundreds of different cities, within all 24 time zones around the world.
  - **Stopwatch**: Measure intervals of time.
  - Timer: Use a timer to count down to an event based on a preset time length (hours, minutes, and seconds).

## **Alarm**

Set an alarm to ring at a specific time.

### Create an Alarm

Create an alarm event. You can set one-time or recurring alarms, and choose options for how to be notified.

- 1. From a Home screen, tap (III) Apps > 2 Clock.
- 2. Tap Add alarm.

- 3. Tap the following items to configure an alarm:
  - Date: Choose the day for this alarm.
  - Time: Set a time for the alarm.
  - Repeat: Choose when to repeat the alarm.
  - Alarm name: Enter a name for the alarm.
  - **Snooze**: Allow snoozing. Set interval and repeat values for the alarm while snoozing.
  - Sound and volume: Choose a sound to play for the alarm, and drag the slider to set the volume of the alarm.
  - **Vibration**: Choose whether the alarm uses vibration alert.
  - Increasing volume: Start playing the alarm tone at a low volume at an interval before the alarm time, and slowly increase in volume.
- 4. Tap **Save** to save the alarm.

### Delete an Alarm

You can delete an alarm that you created.

- From a Home screen, tap (III) Apps > (III) Clock.
- Find the alarm in the alarm list (under Alarm), and then touch and hold it to select it.
- 3. Tap **Delete**.

# World Clock

The World clock lets you keep track of the current time in multiple cities around the globe.

To list a city on the main World clock screen:

- 1. From a Home screen, tap  **Apps** > **⊘ Clock**.
- 2. Tap World clock.
- Tap Add city.
- 4. Swipe through the list or tap **Search** to find a specific city.
- 5. Tap the city to add it to the World clock list.
- 6. Repeat to add more cities.

To remove a city from the main World clock screen:

- 1. From a Home screen, tap **Apps** > Clock.
- 2. Tap World clock.
- 3. Find the city to remove, and then touch and hold it to select it.
- 4. Tap **Delete**.

# **Stopwatch**

The Stopwatch lets you time events down to a hundredth of a second.

- From a Home screen, tap 

  Apps > 

  Clock.
- 2. Tap **Stopwatch** and use the following options:
  - Start: Begin timing.
  - Stop: Stop timing.
  - Lap: Keep track of lap times.
  - Resume: Continue timing after stopping the clock.
  - Reset: Reset the Stopwatch to zero.

# **Timer**

The Timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

- From a Home screen, tap Apps > Clock.
- 2. Tap Timer.
- 3. Use the keypad and tap **Hours**, **Minutes**, and **Seconds** to set the length of the Timer. The following options are available:
  - Start: Begin the Timer.
  - Pause: Pause the Timer.
  - Resume: Resume the Timer.
  - Cancel: Stop the Timer.

# Contacts

Store and manage your contacts with the Contacts app, which can be synchronized with a variety of your existing personal accounts. For more information on connecting with and managing your accounts through your device, see "Accounts" on page 181.

**Note**: The Contacts app is different from the Contacts tab in the Phone app. Although both list the contacts in your phone and accounts, the available options and functions are different.

# Add a Contact

Use the following procedure to add a new contact.

- From a Home screen, tap Apps > Contacts.
- Tap Create contact, and then tap contact fields to enter information.
  - Choose a storage account for the contact. You can store the contact on the device or sync it with an account.
  - Tap 

    Contact photo to assign a picture to the new contact.
  - Enter a name and other contact information.
    - Tap + Add field to enter additional entries.
    - Tap Remove field to remove an entry.

- Tap More for additional fields.
- Tap the label to the right of an entry to choose a label for the field (for example, Home or Work).
- 3. Tap Save.

# **Edit a Contact**

When editing a contact, you can tap a field and change or delete the information, or you can add more fields to the contact's list of information.

- 1. From a Home screen, tap **Apps** > **Ochtacts**.
- 2. Tap the contact to select it, and then tap (i) **Details > Edit**.
- 3. Tap any of the fields to add, change, or delete information.
- 4. Tap Save.

# Share, Import, or Export Contacts

When you share a contact, the contact's information is sent as a vCard file (VCF) or as a text file. You can share a vCard using Bluetooth or Wi-Fi Direct, attach it to a message, or save it to a storage location.

### **Share a Contact**

- From a Home screen, tap Apps > Contacts.
- 2. Tap the contact to select it, and then tap (i) Details > Share.
- Choose whether to send the contact as a vCard file (VCF) or as a Text.
- 4. Choose a sharing method and follow the prompts.

## Import Contacts

Your phone can import contacts from an installed SD memory card (not included).

- From a Home screen, tap Apps > Contacts.
- 2. Tap : More options > Settings > Import/export contacts.
- 3. Tap **Import** and follow the prompts.

### **Export Contacts**

If you are saving contacts to an account that does not automatically back them up to the Cloud, you can manually back them up to an optional installed SD card for re-import if needed.

- 1. From a Home screen, tap  **Apps** >  **Contacts**.
- 2. Tap : More options > Settings > Import/export contacts.
- 3. Tap **Export** and follow the prompts.

# Link or Unlink Contacts

When you have contacts from various accounts, you may have multiple similar entries for a single contact. Contacts lets you link multiple entries into a single contact.

### To link contacts:

- From a Home screen, tap 

  Apps > 

  Contacts.
- 2. Tap the contact to select it, and then tap (i) **Details**.
- 3. Tap : More options > Link contacts.
- 4. Tap contacts to choose them.
- 5. Tap Link.

#### To unlink contacts:

- From a Home screen, tap  **Apps** > 
   Contacts.
- 2. Tap the contact to select it, and then tap (i) **Details**.
- 3. Tap : More options > Manage linked contacts.
- Tap Disconnect beside contacts to unlink them from the main contact.

# Mark Contacts as Favorites

When you mark contacts as favorites, they are easily accessible from other apps. Favorites display together on the Favorites tab in the Phone app.

To mark contacts as Favorites:

- 1. From a Home screen, tap  **Apps** >  **Contacts**.
- 2. Tap the contact to select it, and then tap (i) **Details**.
- 3. Tap ☆ Add to Favorites (the star brightens ★).

To remove contacts from Favorites:

- From a Home screen, tap (III) Apps > (L) Contacts.
- 2. Tap the contact to select it, and then tap (i) **Details**.
- 3. Tap  $\uparrow$  Remove from Favorites (the star dims  $\uparrow$ ).

## Delete Contacts

You can delete a single contact or choose multiple contacts to delete.

- From a Home screen, tap Apps > Contacts.
- Touch and hold a contact to select it. You can also tap other contacts or tap the All checkbox at the top of the screen to select all contacts.
- 3. Tap **Delete**, and then confirm when prompted.

# Groups

You can use groups to organize your contacts. Your device comes with preloaded groups, and you can create your own. You might create a group for your family, for coworkers, or a team. Groups make it easy to find contacts, and you can send messages to the members of a group.

## Create a Group

You can create your own contact groups.

- 2. Tap : More options > Groups.
- Tap Create, and then tap fields to enter information about the group:
  - **Group name**: Enter a name for the new group.
  - **Group ringtone**: Customize the sounds for the group.
  - Add member: Select contacts to add to the new group, and then tap Done.

Tap Save.

## Edit a Group

You can rename a contact group.

- 1. From a Home screen, tap  **Apps** > **⚠ Contacts**.
- 2. Tap : More options > Groups, and then tap a group.
- 3. Tap **Edit** and enter a new name.
- 4. Tap Save.

## Add to or Remove Contacts from a Group

You can add more contacts to a group, or remove contacts.

- 2. Tap More options > Groups, and then tap a group.
- 3. Tap Edit.
  - To add contact, tap Add member, and then tap the contacts you want to add. When finished, tap Done.
  - To remove a contact, tap Delete next to a Contact.
- 4. Tap Save.

# Send a Message to a Group

You can send a text message to members of a group.

- From a Home screen, tap Apps > Contacts.
- 2. Tap : More options > Groups, and then tap a group.
- 3. Tap : More options > Send message.

## Send an Email to a Group

You can send an email to members of a group.

- 1. From a Home screen, tap  **Apps** >  **Contacts**.
- 2. Tap : More options > Groups, and then tap a group.
- 3. Tap : More options > Send email.
- Tap contacts to select them, or tap the All checkbox at the top of the screen to select all, and then tap Done.
  - Only group members that have an email address in their records are displayed.
- 5. Choose an email account and follow the prompts.

## Delete a Group

Preset groups cannot be deleted.

- 2. Tap : More options > Groups, and then tap the group to delete.
- 3. Tap : More options > Delete.
- Tap Group only to only delete the group or tap Group and members to delete the group and the contacts in the groups.

# **Contacts Settings**

These settings allow you to modify settings associated with using the Contacts app.

- 1. From a Home screen, tap  **Apps** >  **Contacts**.
- 2. Tap : More options > Settings.
- 3. Tap an option and follow the prompts.

# **Email**

Use the Email app to view and manage all your email accounts in one app.

# Add or Remove an Email Account from Your Device

To add an email account:

- 2. Tap Cloud and accounts > Accounts.
- 3. Tap + Add account > Email and follow the prompts.

The device communicates with the appropriate server to set up your account and synchronize your email. When complete, your email is displayed in the Inbox for the account.

To configure email account settings at any time:

- Tap : More options > Settings.
- 2. Tap the email account to display its settings.

To remove an email account:

- 2. Tap Cloud and accounts > Accounts.
- 3. Tap the account to be deleted.
- 4. Tap : More options > Remove account.

## Create and Send an Email

This section describes how to create and send an email using the Email app.

- From a Home screen, tap 
   Apps > Samsung folder > 
   Email >
   Compose new email.
- Tap the To field to manually add an email address or tap
   Add from Contacts to select a recipient from Contacts or Groups.
  - If manually entering recipients, enter additional recipients by separating each entry with a semicolon (;). More recipients can be added at any time before the message is sent.
  - If adding a recipient from your Contacts, tap the contact to place a checkmark, and then tap **Done**. The contact is displayed in the recipients field.
  - Tap > Show additional fields to add Cc and Bcc fields.
- 3. Tap the **Subject** and **Message** fields to enter text.
  - Tap **Attach** to add Files, Images, Audio, and more to your email.
  - Tap : More options for additional email options.
- 4. Review your message and tap **Send**.

# **Open New Email**

To access email:

- From a Home screen, tap I Apps > Samsung folder > Email.
- 2. Tap an email to view it.

# Manage the Inbox

There are several tools available from the Inbox screen.

- ► From a Home screen, tap Apps > Samsung folder > Email.
  - Tap a message to read and reply or forward it.
  - Tap **Search** to search for key words in your email inbox.
  - Tap More options for additional message options.

## View Multiple Email Accounts

You can view email you receive for multiple accounts on the Combined inbox screen or you can view email accounts individually.

- 1. From a Home screen, tap III Apps > Samsung folder > a Email.
- Tap Menu at the top left of the screen to view the current account mailbox.
- 3. Tap the account name to view:
  - Combined inbox: View all email in a combined inbox.
  - [Account Name]: View email for only one email account.

# **Email Settings**

These settings allow you to modify settings associated with using the Email app.

- 1. From a Home screen, tap IIII Apps > Samsung folder > 
  in Email.
- 2. Tap : More options > Settings.
- 3. Under **General**, tap an option, and then follow the prompts.
- 4. Tap an account to configure specific settings for only that account.

# Facebook

Keep up with friends and family with the Facebook app. Share updates, photos, and videos, as well as text, chat, and play games.

► From a Home screen, tap **■ Apps** > **■ Facebook**.

# Galaxy Apps

Samsung Galaxy Apps provides a quick and easy way to find and download free premium apps that are compatible with your Galaxy device.

A Samsung account is required to purchase and download apps.

To access the Samsung Galaxy Apps website:

► From a Home screen, tap ( Apps > Samsung folder > Galaxy Apps.

# Gallery

View, edit, and manage pictures and videos.

## **View Pictures**

Launching Gallery displays available folders. When another app, such as Email, saves a picture, a Download folder is automatically created to contain the image. Likewise, capturing a screenshot automatically creates a Screenshots folder.

- 1. From a Home screen, tap III Apps > 😭 Gallery.
- Tap Pictures, Albums, or Stories to choose the way items are displayed.
  - In Albums view, you can create albums to organize your pictures. Tap Albums, and then tap ! More options > Create album.
- 3. Depending on the view mode selected, either tap a picture to view it, or first tap an album or folder, and then tap a picture.
  - When viewing a picture, you can swipe left or right to view the next or previous picture.

## Edit Pictures

You can edit pictures stored on your device.

- While viewing a picture, tap the screen once to see the following options:
  - Share: Send the image to your contacts by email, messaging, social media, cloud accounts, or other methods.
  - Ø Edit: View and use the editing tools.
  - III Delete: Delete the image from your device.
  - \( \frac{\capacita}{\capacita} \) Favorite: Mark the picture as a favorite, and then access it from the Favorites view.
  - More options:
    - Rotate left: Rotate the picture counter-clockwise.
    - Rotate right: Rotate the picture clockwise.
    - Details: View and edit information about the picture, including the date created, location, and properties.
    - Slideshow: Start a slideshow with the pictures and videos in the current folder.
    - Set as contact picture: Set the picture as the photo for a contact.
    - Set as wallpaper: Set the picture as a wallpaper for the Home and Lock screens.
    - Print: Send the image to an available printer.

# Play Video

You can play videos stored on your device.

- 1. From a Home screen, tap III Apps > callery.
- Tap a folder or category to open it.
- 3. Tap a video to view it.
- 4. Tap Play video to play the video.

# **Edit Video**

You can trim segments of a video.

- Select a video, and then tap the screen once to see the video options.
- Tap Edit.
- Use the sliders at the bottom of the screen to trim the video. Move the left bracket to the desired starting point, and then move the right bracket to the desired ending point.
- Tap Save to save the video. Modify the File name, and then tap Save to confirm the changes.

# Share Pictures and Videos

You can share pictures and videos from your Gallery.

- From a Home screen, tap I Apps > Reference
- 2. Tap a folder to open it.
- In a folder, tap : More options > Share, select images and videos, and then tap Share to send them to others or share them with social network services.

- or -

While viewing a single image or video, tap < Share to send it to others or share it with social network services.

# Manage the Gallery

Organize your pictures and videos.

### **Albums View**

In Albums view, you can create albums to organize your pictures and videos.

- From a Home screen, tap 

   Apps > 

   Gallery.
- 2. Tap the **Albums** tab.
- 3. Tap : More options > Create album.

### **Delete Files**

You can delete pictures and videos stored on your device.

- 1. From a Home screen, tap III Apps > de Gallery.
- 2. Tap a folder to open it.
- 3. Tap : More options > Edit.
- 4. Tap pictures and videos to select them, or tap the **All** checkbox at the top of the screen to select all pictures and videos.
- 5. Tap **Delete**, and confirm when prompted.

- or -

When viewing a single picture or video, tap iii **Delete**.

# **Google Apps**

Enjoy these apps from Google.

Certain apps require a Google Account. Visit google.com to learn more.

# Chrome

Browse the Internet and bring your open tabs, bookmarks and address bar data from your computer to your mobile device.

► From a Home screen, tap • Apps > Google folder > Chrome.

Visit <u>google.com/chrome/browser/mobile</u> to learn more about Chrome<sup>™</sup>.

## Drive

Open, view, rename, and share your Google Docs™ and files.

► From a Home screen, tap  **Apps > Google** folder >  **Drive**.

Visit <u>drive.google.com</u> to learn more about Google Drive™.

## Duo

Make one-to-one video calls.

► From a Home screen, tap : Apps > Google folder > Duo.

Visit <u>duo.google.com</u> to learn more about Google Duo.

## Gmail

Send and receive email with Gmail, Google's web-based email service.

► From a Home screen, tap **■ Apps > Google** folder > **M Gmail**.

Visit gmail.com to learn more.

# Google

Search not only the Internet, but also the apps and contents of your device.

► From a Home screen, tap : Apps > Google folder > G Google.

# Maps

Find your current location and get directions and other location-based information

► From a Home screen, tap : Apps > Google folder > Maps.

Visit google.com/maps to learn more.

You must enable location services to use Google Maps. For more information, see "Location" on page 135.

## **Photos**

Automatically backs up your photos and videos to your Google Account.

► From a Home screen, tap ( Apps > Google folder > ♠ Photos.

Visit <u>photos.google.com</u> to learn more about Google Photos™.

# Play Movies & TV

Watch movies and TV shows purchased from Google Play. You can stream them instantly or download them for viewing when you are not connected to the Internet. You can also view videos saved on your device.

From a Home screen, tap Apps > Google folder > Play Movies & TV.

Visit play.google.com/store/movies to learn more.

# **Play Music**

Play music and audio files on your device.

► From a Home screen, tap : Apps > Play Music.

Visit play.google.com/music to learn more.

# **Play Store**

Find new apps, movies and TV shows, music, books, magazines, and games in Google Play store.

► From a Home screen, tap : Apps > ▶ Play Store.

Visit play.google.com/store to learn more.

## YouTube

View and upload YouTube™ videos right from your device.

► From a Home screen, tap : Apps > Google folder > YouTube.

Visit <u>youtube.com</u> to learn more.

# Internet

Access the Internet with a fully-featured web browser.

► From a Home screen, tap : Apps > Samsung folder > ③ Internet.

## View a Web Site

To view a web site:

Tap the address field, enter the web address, and then tap Go on the keyboard.

## Command Keys

The following command keys are available:

- < Back or Sack: Return to the previous page.
- > Forward: Go forward to a recent page.
- A Home: Display your Internet Home screen.
- Bookmarks: Manage bookmarked pages, saved pages, and history.
- Tabs: Manage open tabs. The number on the icon indicates the number of tabs that are currently open.
- Refresh: Refresh or reload the current web page.

## **Use Browser Tabs**

Use tabs to view multiple web pages at the same time.

### To open a new tab:

► Tap Tabs > New tab.

### To close a tab:

- Tap Tabs.
- 2. Tap  $\times$  Close tab by the tabs you want to close.

# Save and Use Bookmarks

The Bookmarks page stores Bookmarks, Saved pages, and History.

## Save and Open Bookmarks

Bookmarking a web page saves the web address so that you can access it quickly.

### To bookmark the current web page:

- Tap □ Bookmarks > Add.
- 2. Type a title for the bookmark and tap **Save**.

### To open a bookmarked web page:

- Tap Bookmarks > Bookmarks.
- 2. Tap a bookmark entry.

## **Saved Pages**

Saving a web page stores the web page content on your device so that you can access it offline.

To save the current web page:

► Tap More > Save web page.

To view saved web pages:

- Tap Bookmarks > Saved pages.
- 2. Tap a saved page to open it in the browser.

## View History

To view a list of recently visited web pages:

► Tap 🔀 Bookmarks > History.

# **Share Pages**

To share a web page address with others:

► Tap More > Share, and follow the prompts.

# **Secret Mode**

Pages viewed in Secret mode are not listed in your browser history or search history, and leave no traces (such as cookies) on your device. Secret tabs are a darker shade than the normal tab windows. Any downloaded files remain on your device after you close the secret tab.

To enable Secret mode:

- 1. From a Home screen, tap IIII Apps > Samsung folder > 1. Internet.
- 2. Tap Tabs > Turn on secret.
- Tap Create password to protect your Secret mode data with a password.

- or -

Tap **Do not use password**.

To turn off Secret mode:

- From a Home screen, tap 

   Apps > Samsung folder > 
   Internet.
- Tap Tabs > Turn off secret.

# **Internet Settings**

These settings allow you to modify settings associated with using the Internet app.

- From a Home screen, tap I Apps > Samsung folder > Internet.
- 2. Tap More> Settings.
- 3. Tap an option and follow the prompts.

# Messages

Learn how to send and receive different messages using the Samsung Messages app on your device.

# **Types of Messages**

The Samsung Messages app provides the following message types:

- Text Messages (SMS)
- Multimedia Messages (MMS)

The Short Message Service (SMS) lets you send and receive text messages to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider's message service.

The Multimedia Messaging Service (MMS) lets you send and receive multimedia messages (such as picture, video, and audio messages) to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider's multimedia message service.

Messaging icons are displayed at the top of the screen and indicate when messages are received and their type.

# Create and Send a Text or Multimedia Message

This section describes how to create and send a message using the Messages app.

- 1. From a Home screen, tap **Apps** > Messages.
- 2. Tap **O** Compose new message.
- 3. Tap contacts, if desired, and then tap **Compose**.
- Tap the Recipient field to manually enter a recipient or tap
   Add from Contacts to select a recipient from your Contacts.
   You can also select the recipient based on Groups or recent calls.
  - If adding a recipient from your Contacts, tap the contact to place a checkmark, and then tap Compose. The contact is placed in the recipients field.
  - Enter additional recipients by separating each entry with a semicolon (;) and then using the previous procedure. More recipients can be added at any time before the message is sent.
- 5. Tap the **Enter message** field to enter a message.

  - © Emoticon: Choose an available emoticon from the list and add it into your message at the cursor location.
- 6. Review the message and tap **Send**.

**Note**: If you exit a message before you send it, the message is automatically saved as a draft.

# View New Messages

When you receive a new message, New message appears on the Status bar.

To view the message:

 Open the Notification panel and tap the message. For more information, see "Notifications" on page 34.

- or -

From a Home screen, tap (IIII) Apps > (IV) Messages, and then tap the new message to view it.

- To play a multimedia message attachment (audio or video), tap
   Play.
- To scroll through the list of messages, swipe up or down the page.

# Manage Messages

Organize your text and multimedia messages.

## Search Messages

You can search through your messages by using the Message Search feature.

- 1. From a Home screen, tap I Apps > Messages.
- 2. Tap **Search**.
- Enter a word or phrase to search for, and then tap Search on the keyboard.

## Protect/Lock Messages

You can lock a message so that it will not be deleted even if you delete the other messages in the conversation.

- From a Home screen, tap 
   Apps > 
   Messages.
- 2. On the Messaging screen, tap a conversation.
- 3. Touch and hold the message that you want to lock.
- Tap Lock on the options menu. A lock icon is displayed at the right hand side of the message.

## **Delete Messages and Conversations**

You can delete individual messages or whole conversations.

#### To delete a message:

- From a Home screen, tap 

  Apps > 

  Messages.
- 2. Tap a conversation to view it.
- 3. Tap : More options > iii Delete and confirm when prompted.

#### To delete conversations:

- From a Home screen, tap (III) Apps > ( ) Messages.
- Tap : More options > Edit.
- Tap each message you want to delete or tap the All checkbox at the top of the screen to select all messages.
- 4. Tap **Delete** and confirm when prompted.

## View Contact Information from a Message

View a contact's details while reading a message.

- 2. On the Messaging screen, tap a conversation.
- Tap a contact, and then tap it again to view the contact's information.

# **Emergency Alerts**

This device is designed to receive wireless emergency alerts from the Commercial Mobile Alerting System (CMAS), which may also be known as the Personal Localized Alerting Network (PLAN). For more information, contact your wireless provider.

Emergency alerts allows customers to receive geographicallytargeted messages. Alert messages notify customers of imminent threats to their safety within their area. There is no charge for receiving an Emergency alert message.

There are three types of Emergency alerts:

- Alerts issued by the President
- Alerts involving imminent threats to safety of life (extreme and severe)
- AMBER alerts (missing child alert)

Users may choose not to receive Imminent alerts (extreme and severe) and AMBER alerts.

Note: Alerts issued by the President cannot be disabled.

## **Configure Alerts**

To disable Imminent and AMBER alerts:

- From a Home screen, tap (IIII) Apps > ... Messages.
- Tap : More options > Settings > Emergency alert settings.
- 3. Tap **Emergency alerts**.
  - All alerts are enabled (on) by default.
- Tap an alert option to disable it.

# **Messages Settings**

Configure the settings for text messages, multimedia messages, push messages, and more.

From a Home screen, tap (() Apps > () Messages > () More options > Settings.

# Messenger

Instantly reach your friends and family with Facebook Messenger, which works just like texting.

Note: A data plan is required to use Messenger.

To access Messenger:

► From a Home screen, tap : Apps > Messenger.

# My Files

Access files stored on your device, including images, videos, music, and sound clips.

To view files in My Files:

- 1. From a Home screen, tap I Apps > Samsung folder > My Files.
- 2. Tap a category to view the relevant files or folders.
- 3. Tap a file or folder to open it.

# File Groups

Files stored in the device are organized into the following groups:

- Recent files: View recently saved files.
  - This option appears if one or more files have been accessed recently.
- My device: View folders and files located on the device.
- SD card: View folders and files located on an optional memory card (not included).
  - This option appears if an optional memory card is installed.
- Downloads: View all apps and files that have been downloaded to the device.
- Documents: View document files.

- Images: View image files.
- Audio: View audio files.
- Videos: View video files.

# My Files Options

Use My File options to search, edit, clear file history, and more.

- ► From a Home screen, tap : Apps > Samsung folder > My Files. The following options are available:
  - Search: Search for a file or folder.
  - More options: Tap for the following options:
    - Clear recent file history: Clear the Recent files category.
       This option only appears if files have been accessed recently.
    - Manage storage usage: View memory information for your device.
    - **Settings**: View settings for the My Files app.

# **Phone**

## Make and Answer Calls

Learn how to make or answer a call. Explore features and functionality associated with making or answering a call.

#### Make a Call

You can make a call from a Home screen.

#### Using the Dialer

- From a Home screen, tap Phone.
- 2. Enter a number on the keypad and tap Call.
  - Tap (11) Keypad if the keypad is not displayed.

#### From Contacts

You can quickly dial a phone number from your Contacts list.

- 1. From a Home screen, tap  **Apps** >  **Contacts**.
  - or –

From a Home screen, tap <a> Phone</a> Contacts.

2. Swipe your finger across a contact to the right to call the contact.

#### From Recents

All incoming, outgoing, and missed calls are recorded in the Call log. If the number or caller is listed in your contacts list, the associated name is also displayed.

- 1. From a Home screen, tap 🕓 Phone.
- 2. Tap **Recents**. A list of recent calls is displayed.
- 3. Tap a contact, and then tap **Call**.

# **Answer a Call**

When a call is received, the phone rings and the caller's phone number or name is displayed, if it is stored in the Contacts list.

 On the incoming call screen, drag Answer to the right to answer the call.

If you are using an app, a pop-up screen is displayed for the incoming call.

 On the incoming call pop-up screen, tap Answer to answer the call.

#### Decline a Call

 On the incoming call screen, drag @ Decline to the left to reject the call and send it to your voicemail.

If you are using an app, a pop-up screen is displayed for the incoming call.

► Tap **6** Decline to reject the call and send it to your voicemail.

## Decline with Message

► On the incoming call screen, drag **Send message** upward and select a message.

If you are using an app, a pop-up screen is displayed for the incoming call.

► Tap **Send message** and select a message.

## End a Call

To finish your call:

► Tap **a** End when you are ready to end your call.

## While on a Call

#### Adjust the Call Volume

- ▶ Press the **Volume** keys to increase or decrease the volume.
  - or –

Tap **© Extra volume** to quickly add more volume to the incoming audio.

## Multitasking

If you exit the call screen and return to a Home screen, your active call is indicated by **Call** on the Status bar.

This lets you continue with your current call and do something else, such as access the contacts list, view a recent email, or locate a picture.

To return to the call screen:

 Drag the Status bar down to display the Notification panel, and then tap Call notification.

To end a call from any application:

Drag the Status bar down to display the Notification panel, and then tap — End call.

## Switch to Headset or Speaker

Listen to the call using the speaker or through a Bluetooth headset (not included).

- ► Tap () Speaker to hear the caller using the speaker.
  - or -

Tap \* Bluetooth to hear the caller using a Bluetooth headset.

# Call Log

The numbers of the calls you have dialed, received, or missed are stored in the Call log.

- 1. From a Home screen, tap 🕓 Phone.
- Tap Recents. A list of recent calls is displayed. If the caller is in your Contacts list, the caller's name is displayed.

#### Save a Contact a Recent Call

Use recent call information to create a contact or update your Contacts list.

- 2. Tap Recents.
- 3. Tap the call that contains the information that you want to save to your Contacts list.
- 4. Tap (i) Details.
- 5. Tap Create contact.

- or -

If you want to replace the number for an existing contact, tap **Update existing**.

#### **Delete Call Records**

To delete Call log entries:

- 1. From a Home screen, tap 🕓 Phone.
- 2. Tap Recents.
- 3. Touch and hold the call you want to delete from the Call log.
- 4. Tap Delete.

#### Block a Number

By adding a caller to your Block list, future calls from this number are sent directly to your voicemail, and messages are not received.

- 1. From a Home screen, tap 🕓 Phone.
- 2. Tap Recents.
- 3. Tap the caller you want to add to the Block list.
- Tap ( ) Details > ! More options > Block number. Confirm when prompted.

You can also modify the Block list in Settings:

► From a Home screen, tap S Phone > More options > Settings > Block numbers.

# Speed Dial

You can assign a shortcut number to a contact for speed dialing their default number.

## Create a Speed Dial

You can assign 999 speed dial numbers.

- From a Home screen, tap Phone.
  - Tap 
     (III) Keypad if the keypad is not displayed.
- Tap : More options > Speed dial. The Speed dial screen displays the reserved speed dial numbers.

- 3. Tap an unassigned number.
  - Tap Menu to select a different Speed dial number than the next one in sequence.
  - Number1 is reserved for Voicemail.
- Type in a name or number, or tap ☐ Add from Contacts to assign a contact to the number.

## Make a Call with Speed Dial

You can make a call using Speed dial.

- From a Home screen, tap Phone.
  - Tap 
     (I) Keypad if the keypad is not displayed.
- 2. Touch and hold the Speed dial number.
  - If the Speed dial number is more than one digit long, enter the first digits, and then hold the last digit.

# Remove a Speed Dial Number

You can remove an assigned Speed dial number.

- 1. From a Home screen, tap **OP Phone**.
- 2. Tap : More options > Speed dial.
- 3. Find the contact to remove from Speed dial.
- 4. Tap Remove.

# **Emergency Calls**

You can dial the emergency telephone number in your region regardless of the phone's cellular service status.

#### Make an Emergency Call

You can dial the emergency telephone number from your phone whether or not cellular service has been activated. If your phone is not activated, you can only make an emergency call.

- 1. From a Home screen, tap 🕓 Phone.
- 2. Enter the emergency telephone number (911 in North America) and tap Call.
- Complete your call. During this type of call, you have access to most in-call features.

#### Make an Emergency Call from a Locked Screen

The emergency telephone number can be dialed even if the phone is locked, allowing anyone to use your phone to call for help in an emergency. When accessed from a locked screen, only the emergency calling feature is accessible to the caller. The rest of the phone remains secured.

#### Secure Lock Screens

You can make calls even if your phone has a secure lock screen.

- 1. Drag 🕓 **Phone** upward to open the call screen.
- 2. Tap **Emergency call** to display the Emergency dialer.
- Enter the emergency telephone number (911 in North America) and tap Call.
- Complete your call. During this type of call, you have access to most in-call features.

## Voicemail

Use your phone's voicemail feature.

For information on setting up voicemail, see "Set Up Voicemail" on page 26.

#### **Access Voicemail**

You can access voicemail from your device or another phone.

#### From Your Device

From the Home screen, tap \( \bigcirc \) **Phone**, and then touch and hold the \( \frac{1}{2} \) **1 key**.

#### From Another Phone

You can access your voicemail from another phone.

- From another phone, dial your wireless phone number. Wait until you hear your voicemail greeting.
- 2. Press the **asterisk** or **star** (\*) key on the phone you are using.
- 3. Enter your password and you are connected to your voicemail.

# **Optional Calling Services**

## Place a Multi-Party Call

If your service plan supports this feature, you can make another call while a call is in progress.

- 1. From the active call, tap + Add call to dial the second call.
- 2. Dial the new number and tap Call. When the call is answered:
  - Tap **On hold** to switch between the two calls.
  - Tap Merge to hear both callers at once (multi-conferencing).

# **Phone Settings**

To access settings:

► From a Home screen, tap S Phone > More options > Settings.

# Samsung+

Get live help, discover new features, and unlock promotions for your Samsung device.

► From a Home screen, tap : Apps > ● Samsung+.

Visit samsung.com/us/samsung-plus to learn more.

# Secure Folder

Lock your private content and apps to enhance security.

► From a Home screen, tap **■ Apps** > **□ Secure Folder**.

# **TracFone Apps**

Enjoy these apps from TracFone.

# My Account Downloader

Access your current account information.

► From a Home screen, tap : Apps > My Account Downloader.

## Voice Mail

Retrieve messages left by unanswered calls.

► From a Home screen, tap : Apps > Voice Mail.

# Wi-Fi Utility

Access free, high-speed data by automatically connecting to reputable Wi-Fi hotspots when available.

► From a Home screen, tap I Apps > 
 Wi-Fi Utility.

# Settings

Configure your device's connections and settings, add accounts, and customize Home screens, apps, and features.

# **How to Use Settings**

# **Access Settings**

There are a couple of ways to access your device settings.

► From a Home screen, tap **# Apps** >  **Settings**.

- or -

Drag down from the Status bar to display the Notification panel, and then tap **Settings**.

# Search for Settings

If you are not sure exactly where to find a certain setting, you can use the Search feature.

- 1. From a Home screen, tap (iii) Apps > 🐼 Settings.
- 2. Tap Search.
  - Enter a word or words in the Search field. As you type, settings that match display on the screen.
  - Tap an entry to go to that setting.

# Connections

Manage connections between your device and a variety of networks and other devices.

# Wi-Fi

Wi-Fi is a term used for certain types of Wireless Local Area Networks (WLAN). Wi-Fi communication requires access to a wireless Access Point (AP).

## Connect to a Wi-Fi Network

To scan for a Wi-Fi network and connect to it:

- 1. From a Home screen, tap 📖 Apps > 📀 Settings.
- 2. Tap Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.
  - When Wi-Fi is turned on, your device automatically scans for available networks and displays them.
- 3. Tap the network you want to connect to.
  - When you select an open network, you are automatically connected to the network. Otherwise, enter a password to connect.

#### Manually Connect to a Wi-Fi Network

You can connect your device to a Wi-Fi network manually.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.
- 3. Swipe to the bottom of the screen and tap (+) Add network.

- 4. Enter information about the Wi-Fi network:
  - **Network name**: Enter the name of the Wi-Fi network.
  - **Security**: Select a security option and enter your password.
  - Auto reconnect: Connect to this network automatically whenever available.
  - Show advanced options: Add advanced options such as IP settings and Proxy settings.
- Tap Connect to store the new information and connect to your target wireless Access Point.

# Wi-Fi Options

The Wi-Fi settings menu allows you to set up many of your device's advanced Wi-Fi services.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.
- 3. Tap **Advanced** for options:
  - Smart network switch: Connect automatically to a mobile network connection when the Wi-Fi connection is unstable.
  - Network notification: Receive notifications when open networks in range are detected.
  - Manage networks: Manage your saved Wi-Fi networks.
  - WPS push button: Set up a connection to a WPS (Wi-Fi Protected Setup) router or other equipment.

- WPS PIN entry: View the PIN used by your device to set up a PIN-secured connection to a Wi-Fi router or other equipment (not configurable).
- Keep Wi-Fi on during sleep: Specify when to disconnect from Wi-Fi.
- Install network certificates: Install authentication certificates.
- MAC address: View your device's MAC address, which is required when connecting to some secured networks (not configurable).
- IP address: View your device's IP address (not configurable).

## Wi-Fi Direct

Wi-Fi Direct allows direct device-to-device connections using Wi-Fi, without having to connect to a Wi-Fi network.

#### Connect to a Device with Wi-Fi Direct

Use Wi-Fi Direct to connect directly to other Wi-Fi Direct devices.

- 1. From a Home screen, tap (III) Apps > 🐼 Settings.
- 2. Tap Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.
  - Wi-Fi must be on to configure settings.
- Tap Wi-Fi Direct. Your device automatically scans for nearby Wi-Fi Direct devices.
- Select a device, and then follow the prompts to complete the connection.

#### Send and Receive Data with Wi-Fi Direct

Share data with another device using Wi-Fi Direct.

- Connect your phone to the device using Wi-Fi Direct. See "Connect to a Device with Wi-Fi Direct" on page 127 for more information.
- 2. From an app, tap < Share or More > Share.
  - Sharing options may vary.
- 3. Tap Wi-Fi Direct and follow the prompts.

#### Disconnect from Wi-Fi Direct

Disconnect your phone from a Wi-Fi Direct device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Wi-Fi > Wi-Fi Direct.
- 3. Tap a device to disconnect it.

# Bluetooth

Bluetooth is a short-range communications technology that connects your device wirelessly to a number of Bluetooth devices, such as headsets and hands-free car Bluetooth systems, and Bluetooth-enabled computers, printers, and wireless devices.

The Bluetooth communication range is approximately 30 feet.

## Pair with a Bluetooth Device

The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device.

Pairing between two Bluetooth devices is a one-time process. Once a pairing is created, the devices continue to recognize their partnership and exchange information without having to re-enter a passcode.

Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth compatible devices.

- From a Home screen, tap ( Apps > Settings.
- Tap Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
  - Make sure that the target device is discoverable so that your device can find it. Refer to the instructions that came with the device to find out how to set it to discoverable mode.
  - When Bluetooth is first turned on, it scans for nearby Bluetooth devices and displays them.
  - To manually perform a new scan, tap Scan.
- Tap the name of the target device when you see it displayed in the Bluetooth devices section.
  - Your device automatically tries to pair with the target device.
     If automatic pairing fails, enter the passcode supplied with the target device.

#### Rename a Paired Device

Once you have paired your device to another device, you can rename the paired device to make it easier to recognize.

- 1. From a Home screen, tap ( Apps > Settings.
- Tap Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
- Tap Settings next to the previously paired device, and then tap Rename.
- 4. Enter a new name, and tap Rename.

# Send and Receive Data with Bluetooth

Use Bluetooth to transfer information between your phone and another Bluetooth-enabled device.

## Send Data Using Bluetooth

Share data with another device using Bluetooth.

- 1. From an app, tap < Share or More > Share.
  - Sharing options may vary.
- 2. Tap **Bluetooth** and follow the prompts.

## Receive Data Using Bluetooth

Share data with another device using Bluetooth.

- When another device attempts to send a file to your phone using Bluetooth, you will see a request to accept the file.
- 2. Tap Accept.
- 3. To open the file, drag down the Notification panel and tap **File received**.

# Connect with a Bluetooth Device

Listen to music using a Bluetooth stereo headset, or have hands-free conversations using a compatible Bluetooth headset or car kit.

- 1. From a Home screen, tap **\*\*\* Apps > O Settings**.
- 2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.
- 3. Tap a device from the "Paired devices" list.
  - When the device is connected to your phone, \* Bluetooth connected is displayed in the status bar.

# Disconnect from a Bluetooth Device

Disconnect a Bluetooth device from your phone.

- 1. From a Home screen, tap **# Apps > Settings**.
- 2. Tap **Bluetooth**, and then tap **On/Off** to turn off Bluetooth.

# Unpair from a Bluetooth Device

When you unpair from a Bluetooth device, the two devices no longer recognize each other. To connect again, you have to pair the devices.

- From a Home screen, tap ( Apps > Settings.
- Tap Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
- Tap Settings next to the paired device, and then tap Unpair to delete the paired device.

# Airplane Mode

Airplane mode disconnects your device from all networks and turns off connectivity features, such as phone calls and Wi-Fi.

While in Airplane mode, you can use other features such as playing music, watching videos, and other offline applications.

# Turn Airplane Mode On or Off

To enable or disable Airplane mode:

- 1. From a Home screen, tap (III) Apps > ( Settings.
- Tap Connections > Airplane mode, and then tap On/Off to enable or disable the option.

# **Data Usage**

Monitor how your data is being used, and set limits and restrictions to conserve it.

Your service provider may account for data usage differently.

#### Turn Mobile Data On or Off

Enable or disable mobile data use on your phone.

- From a Home screen, tap ( Apps > Settings.
- Tap Connections > Data usage > Mobile data to turn mobile data on or off.

## Set or Remove Limits to Mobile Data Usage

Limit mobile data use on your phone.

- From a Home screen, tap ( Apps > Settings.
- Tap Connections > Data usage > Set mobile data limit.

## Create an Alert for Mobile Data Usage

Receive alerts when mobile data use reaches a warning amount you set.

- 1. From a Home screen, tap **Apps** > **Settings**.
- 2. Tap **Connections** > **Data usage**.
- On the graph, drag the warning bar up or down to set the data usage warning amount.

# Check Mobile Data Usage by Apps

Monitor your apps' mobile data usage.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > Data usage.
- 3. Under **By application**, view data usage by application.
  - Tap an app to view details.

## Additional Mobile Data Usage Options

Configure more options for mobile data usage.

- 1. From a Home screen, tap **\*\*\*\* Apps > \*\*\* Settings**.
- 2. Tap Connections > Data usage.
- 3. Tap More options for the following options:
  - Restrict background data: Restrict some apps and services from working unless you are connected to a Wi-Fi network.
  - Show/Hide Wi-Fi usage: Display or hide a Wi-Fi tab that shows Wi-Fi usage.

# **Mobile Networks**

Control your device's access to networks and mobile data service.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > Mobile networks for options:
  - Data roaming: Allow your device to connect to data services while roaming.
  - **VoLTE calls**: Turn on enhanced communication using LTE data.
  - **Network mode**: Choose a preferred network mode.
  - Access Point Names: Choose or add APNs.

# Location

Some apps, such as Google Maps, may require one or more location services be turned on for full functionality.

## Locating Method

Before using any features that require location assistance, you must enable your device's location services.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > Location.
- 3. Tap On/Off to turn on Location services.

- 4. Tap **Locating method** to select how your location is determined:
  - **High accuracy**: Uses GPS, Wi-Fi, and mobile networks.
  - Battery saving: Uses Wi-Fi and mobile networks (no GPS).
  - Device only: Uses GPS only.
- Tap Improve accuracy to use other connections for determining your location:
  - Wi-Fi scanning: Allow apps and services to scan for Wi-Fi networks automatically, even when Wi-Fi is turned off.
  - Bluetooth scanning: Allow apps to scan for and connect to nearby devices automatically through Bluetooth, even when Bluetooth is turned off.

#### **Recent Location Requests**

Apps that have requested your location are listed under Recent location requests.

- 1. From a Home screen, tap (iii) Apps > 📀 Settings.
- 2. Tap Connections > Location.
- 3. Tap **On/Off** to turn on Location services.
- Tap an entry under Recent location requests to view the app's settings.

#### **Location Services**

Google Location History™ stores and uses your device's most recent location data. Google apps, such as Google Maps, can use this data to improve your search results based on places that you have visited.

- 1. From a Home screen, tap **# Apps > Settings**.
- Tap Connections > Location.
- 3. Tap **On/Off** to turn on Location services.
- Tap Google Location History and sign in to your Google Account for more options.

# **Nearby Device Scanning**

Scan for nearby devices to connect to and set them up easily. You receive a notification when there are available devices to connect to. This function uses Bluetooth Low Energy scanning even if Bluetooth is turned off on your device.

To enable nearby device scanning:

- From a Home screen, tap ( Apps > Settings.
- Tap Connections > More connection settings > Nearby device scanning.
- 3. Tap **On/Off** to enable the feature.

# **Printing**

Print images and documents to Samsung printers and other compatible printers (not included).

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > More connection settings > Printing.
- 3. Tap a print service and follow the prompts.
  - To configure Samsung Print Service Plugin, tap it, and then tap More options > Printing settings.
  - Tap 
     Download plug-in to install additional print service drivers.

# Virtual Private Networks (VPN)

Set up and manage your Virtual Private Networks (VPNs). You must set a secured screen lock before setting up a VPN. For more information, see "Set a Screen Lock" on page 172.

## Set Up and Manage a VPN

Use the VPN settings menu to add, edit, or delete a VPN connection to your device.

#### To add a VPN:

- From a Home screen, tap (##) Apps > ( Settings.
- 2. Tap Connections > More connection settings > VPN.
- 3. Tap **Add VPN** and follow the prompts to set up your VPN.

#### To edit or delete a VPN:

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > More connection settings > VPN.
- 3. Tap Settings next to the VPN that you want to edit or delete.
- 4. Edit the VPN and tap Save.
  - or –

Tap **Delete** to delete the VPN.

#### Connect to or Disconnect from Your VPN

Once you have set up a VPN connection, connecting to and disconnecting from the VPN is easy.

#### To connect to a VPN:

- 1. From a Home screen, tap ( Apps > Settings.
- 2. Tap Connections > More connection settings > VPN.
- 3. Tap the VPN, enter your log in information, and tap **Connect**.

#### To disconnect from a VPN:

- 1. From a Home screen, tap **# Apps > Settings**.
- 2. Tap Connections > More connection settings > VPN.
- 3. Tap the VPN, and then tap **Disconnect**.

# Sounds and Vibration

Configure the sounds and vibrations used to indicate notifications, screen touches, and other interactions.

# **Sound Mode**

You can switch between sound modes, while preserving the individual sound settings you have made.

- 1. From a Home screen, tap **\*\*\* Apps > O Settings**.
- Tap Sounds and vibration > Sound mode, and then choose a mode:
  - Sound: Use the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.
  - Vibrate: Vibrate for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.
  - Mute: Mute all sounds and notifications.

# **Vibrations**

# Turn Vibrate While Ringing On or Off

Your device can vibrate in addition to ringing when you receive a call.

- From a Home screen, tap (■ Apps > ♠ Settings.
- Tap Sounds and vibration > Vibrate while ringing to enable this option.

#### Set the Vibration Pattern

Choose from preset vibration patterns or create your own pattern.

- 1. From a Home screen, tap **# Apps > Settings**.
- Tap Sounds and vibration > Vibration pattern.
- 3. Tap a pattern to preview and select it.

#### Volume

Set the system volume level and default volume for call ringtones, notifications, and other audio. You can also set the Ringtone volume from a Home screen by pressing the **Volume** key.

- From a Home screen, tap ( Apps > Settings.
- Tap Sounds and vibration > Volume and drag the sliders to set the default volume for:
  - Ringtone
  - Media
  - Notifications
  - System

#### Media Volume Limiter

Limit the maximum output of the device's volume. You can also set a PIN to prevent unauthorized users from changing this setting.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Sounds and vibration > Volume.
- 3. Tap More options > Media volume limiter.
  - Tap On/Off to enable this feature.
    - When enabled, drag the Custom volume limit slider to set the maximum output volume.
  - Tap Set volume limit PIN to prevent changes to the volume setting.

# Ringtone

Choose from preset ringtones or add your own.

- From a Home screen, tap (Ⅲ) Apps > ♠ Settings.
- 2. Tap Sounds and vibration > Ringtone.
- 3. Tap a ringtone to hear a preview and select it.

– or –

Tap + Add from device storage to use an audio file as a ringtone.

# **Notification Sounds**

Choose a sound for notifications, such as for new messages and event reminders.

- From a Home screen, tap ( Apps > Settings.
- Tap Sounds and vibration > Notification sounds and configure the following options:
  - Default notification sound: Choose a default sound for all notifications.
  - Messages notifications: Choose a sound for message notifications, and enable or disable vibration alert.
  - Calendar notifications: Choose a sound for calendar notifications, and enable or disable vibration alert.
  - Email notifications: Configure email account notifications.
     An email account must be configured for this option to be available.

# Do Not Disturb

This setting allows you to block all notifications and alerts. The options below determine what notifications can make sounds, and during what time periods you want to enter this mode.

#### To activate Do not disturb mode:

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Sounds and vibration > Do not disturb.
- 3. Tap **Turn on now** to enable this option.
- 4. Tap **Turn on as scheduled**, and then tap **Days**, **Start time**, and **End time** to set up a do not disturb schedule.
- Tap Allow exceptions to customize which notifications are allowed while your device is in Do not disturb mode.

# **System Sounds**

Set various other system sound options.

- 1. From a Home screen, tap ( Apps > Settings.
- 2. Tap Sounds and vibration, and tap to enable each option:
  - Touch sounds: Play tones when you touch or tap the screen to make selections
    - Screen lock sounds: Play a sound when you unlock the screen.
    - Emergency tone: Set the emergency tone to alert, vibrate, or silent.
    - Charging sound: Play a sound when a charger is connected.

# **Key-Tap Feedback**

Play tones when the dialing keypad or the keyboard is tapped.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Sounds and vibration**, and then tap to enable each option:
  - Dialing keypad tones: Play a tone when the dialing keypad is tapped.
  - Keyboard sound: Play a sound when the Samsung keyboard is tapped.

# Sound Quality and Effects

You can enable sound effects when connected to a headset. Sound effects are only available when headphones or a compatible Bluetooth headset (not included) is connected.

Choose from advanced sound options to customize your audio experience.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Sounds and vibration > Sound quality and effects.
- Tap Equalizer and choose a setting, or tap Advanced or Basic to customize your sound settings.

- 4. Tap **On/Off** to enable each option:
  - **Surround**: Recreate the effects of rich surround sound.
  - Tube Amp Pro: Simulate the soft timbre of a tube amplifier.
  - Concert hall: Simulate the reverb of a concert hall.
- Tap Adapt sound and follow the prompts to customize your sound settings.

# **Notifications**

Select which apps you want to receive alerts from. Alerts include notifications, sounds, and vibrations.

# **Notifications Settings**

The following topics cover your phone's Notifications settings options.

To access notification settings:

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Notifications.
- 3. Tap **On/Off** next to an app to enable or disable notifications.
  - Tap Advanced to configure more notification options for individual apps.

# Display

Configure your display's brightness, screen timeout delay, and other display settings.

# Screen Brightness

Adjust the screen brightness to suit your surroundings or personal preference. You may also want to adjust screen brightness to conserve battery power.

- 1. From a Home screen, tap ( Apps > Settings.
- 2. Tap Display.
- 3. Customize options under Brightness:
  - Drag the **Brightness** slider to set a custom brightness level.
  - Tap Outdoor mode to increase the screen brightness for 15 minutes for greater visibility when outdoors.

## **Font**

You can set the font size and style for all text that is displayed on the screen.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Display** > **Font** to choose a font size and style.
  - Drag the slider to adjust the font size.
  - Tap a font style to select a font, or tap + Download fonts to find new fonts from Galaxy Apps.
- 3. Tap **Apply** to set the font size and style.

# **Easy Mode**

Switch between the default screen layout and a simpler layout. The Easy mode layout has larger text and icons, making for a more straightforward visual experience.

#### To enable Easy mode:

- 1. From a Home screen, tap 📖 Apps > 🔯 Settings.
- 2. Tap Display > Easy mode.
- 3. Tap **Easy mode** to enable this feature.
  - When Easy mode is enabled, you can swipe down the page and select which apps you want to display on the Home screens.
- 4. Tap the apps you want to add or remove.
- 5. Tap **Done** to save your settings.

## **Icon Frames**

You can show icons with shaded frames to make them stand out on the Home screen and Apps list screen.

- From a Home screen, tap ( Apps > Settings.
- Tap **Display** > **Icon frames** and choose one of the following options:
  - Icons only: Show icons only.
  - Icons with frames: Show icons with shaded frames.
- 3. Tap **Apply**, and confirm when prompted.

# Status Bar

Configure display options for the Status bar.

- 1. From a Home screen, tap ( Apps > Settings.
- 2. Tap Display > Status bar.
  - Tap Show recent notifications only to display only the three most recent notification icons on the Status bar.
  - Tap Show battery percentage to display the battery charge percentage next to the battery icon on the Status bar.

# **Screen Timeout**

Turn the screen off after a set amount of time.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Display** > **Screen timeout** and choose a time period.

# Screen Saver

Screen saver controls what is displayed on the screen when the device is docked (dock not included) or while charging. You can choose to display colors or photos.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Display** > **Screen saver**.
- 3. Tap On/Off to enable Screen saver.

#### 4. Configure options:

- Colors: Tap the selector to display a changing screen of colors.
- 1Weather: Display local weather information.
- Photo table: Display pictures in a photo table.
   Tap Settings for options.
- Photo frame: Display pictures in a photo frame.
   Tap Settings for options.
- Photos: Display pictures from your Google Photos account.
   Tap Settings for options.
- 5. Tap More options for additional options:
  - **Preview**: See a demonstration of Screen saver.
  - Select when to use: Select when your device can go into Screen saver mode.

# Wallpapers and Themes

You can change the appearance of your device with custom wallpapers, themes, and icons.

# Wallpapers

Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.

#### To change wallpaper:

- From a Home screen, tap (##) Apps > ( Settings.
- Tap Wallpapers and themes > Wallpapers.
- 3. Tap View all to see all available wallpaper images.
  - Tap From Gallery for additional wallpapers.
- Tap an image to choose it, and then choose which screen you want to use it for:
  - Home screen
  - Lock screen
  - Home and lock screens
- 5. Tap **Set as wallpaper**.

### **Themes**

Set the theme to be applied to your Home and Lock screens, wallpapers, and app icons.

- 1. From a Home screen, tap (III) Apps > 🚫 Settings.
- 2. Tap Wallpapers and themes > Themes.
- 3. Tap a theme to view a preview of the theme.
  - Tap View all to see all available themes.
- 4. Tap **Apply** to apply the selected theme.

### **Icons**

Apply custom icons to replace built-in app icons.

- 1. From a Home screen, tap **\*\*\* Apps > \*\* Settings**.
- Tap Wallpapers and themes > Icons.
- 3. Tap an icon set to view a preview the icons.
  - Tap View all to see all available icon sets.
- 4. Tap **Apply** to apply the selected icon set.

# Device Maintenance

Device maintenance provides an overview of the status of your device's battery, storage, RAM, and device security. You can also automatically optimize your device's system resources.

# **Quick Optimization**

The quick optimization feature improves device performance through the following actions:

- Identifying apps that use excessive battery power and clearing unneeded items from memory.
- Deleting unnecessary files and closing apps running in the background.
- Scanning for malware.

To use the quick optimization feature:

- 1. From a Home screen, tap (iii) Apps > 🐼 Settings.
- Tap Device maintenance.
- 3. Tap Optimize now.

# **Battery**

View how battery power is used for device activities.

- 1. From a Home screen, tap (III) Apps > 🐼 Settings.
- Tap Device maintenance > Battery for options:
  - Battery usage: View details of battery usage by item.
  - Power saving mode: Extend battery life by selecting a power saving mode level. Choose Off, Mid, or Max. Estimated remaining battery life for each mode is provided.

- App power monitor: Put apps to sleep so that they do not use battery power when not in use. Tap Save power to enable.
- Unmonitored apps: Select apps to exclude from being put to sleep by the App power monitor.
- More options:
  - Notification settings: Configure battery notifications.
  - Advanced settings: Configure advanced battery settings.

# Storage

View the device memory and usage. Mount, unmount, or format an optional memory card (not included).

# **Device Memory**

View and manage the memory used by the device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Device maintenance > Storage. Used memory is divided into:
  - Documents
  - Images
  - Audio
  - Videos
  - Apps

To increase available memory:

- 1. From a Home screen, tap 📖 Apps > 😥 Settings.
- 2. Tap Device maintenance > Storage.
- 3. Tap Clean now and follow the prompts.

# Memory Card (SD Card)

Once an optional memory card (not included) has been installed in your device, the card memory is displayed in the Storage setting.

For more information, see <u>"Install an Optional Memory Card" on page 15</u>.

## Mount a Memory Card

When you install an optional memory card, it is automatically mounted (connected to the device) and prepared for use. However, should you unmount the card without removing it from the device, you need to mount it before it can be accessed.

- From a Home screen, tap (Ⅲ) Apps > ♠ Settings.
- 2. Tap **Device maintenance** > **Storage**.
- 3. Tap More options > Storage settings.
- 4. Under Portable storage, tap your SD card, and then tap Mount.

### Remove a Memory Card

**Warning**: To prevent damage to information stored on the memory card, unmount the card before removing it from the device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Device maintenance > Storage.
- 3. Tap More options > Storage settings.
- 4. Under **Portable storage**, tap your SD card, and then tap **Unmount**.
- Remove the back cover. For more information, see <u>"Remove the Back Cover" on page 12</u>.
- 6. Slide the card out carefully.
- Replace the back cover. For more information, see <u>"Replace the Back Cover" on page 17</u>.

## Format a Memory Card

**Warning**: When formatting an SD card, you should back up your music and photo files that are stored on the card because formatting the SD card deletes all the stored data.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Device maintenance** > **Storage**.
- 3. Tap More options > Storage settings.
- Under Portable storage, tap your SD card, tap Format, and then follow the prompts.

#### **RAM**

Check the amount of available RAM. You can close background apps and reduce the amount of RAM you are using to speed up your device.

- From a Home screen, tap ( Apps > Settings.
- Tap Device maintenance > RAM.
  - The used and available RAM are shown.
- To free up as much RAM as possible, tap Clean now and follow the prompts.
  - The selected apps and services in the list will be closed.

# **Device Security**

Configure and monitor security settings for your device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Device maintenance > Device security.
  - To enhance security for some of your content, tap the link for Secure Folder. For more information, see <u>"Secure Folder" on page 174</u>.
  - To activate Knox active protection on your device, tap **On/Off**.

# Language and Input

Configure your device's language and input settings.

## Language

You can select a default language for your device's menus and keyboards.

- 1. From a Home screen, tap 📖 Apps > 📀 Settings.
- 2. Tap General management > Language and input > Language.
- Select a language from the list.

#### **Default Keyboard**

You can select a default keyboard for your device's menus and keyboards.

Additional keyboards can be downloaded from the Google Play store.

- 1. From a Home screen, tap **# Apps > Settings**.
- Tap General management > Language and input > Default keyboard.
- Select a keyboard.

#### Text-to-Speech Options

Configure your Text-to-Speech (TTS) options. TTS is used for various accessibility features, such as Voice Assistant. For more information, see "Accessibility" on page 186.

- From a Home screen, tap ( Apps > Settings.
- Tap General management > Language and input > Text-to-speech for options:
  - Preferred TTS engine: Choose either the Samsung or Google Text-to-speech engine. Tap Settings next to each TTS engine for options.
  - **Speech rate**: Set the speed at which the text is spoken.
  - Default language status: Display the default language in use.

## **Pointer Speed**

Configure pointer speed for an optional mouse or trackpad (not included).

- From a Home screen, tap ( Apps > Settings.
- 2. Tap General management > Language and input.
- Under Pointer speed, drag the slider to the right to go faster or to the left to go slower.

# Date and Time

By default, your device receives date and time information from the wireless network. When you are outside network coverage, you may want to set date and time information manually using the date and time settings.

- From a Home screen, tap ( Apps > Settings.
- Tap General management > Date and time. The following options are available:
  - Automatic date and time: Receive date and time updates from the wireless network. When Automatic date and time is disabled, the following options are available:
    - Set date: Enter the current date.
    - Set time: Enter the current time.
    - Select time zone: Choose your local time zone.
  - Use 24-hour format: Set the format for displaying time.

# Report Diagnostic Info

This feature sends diagnostic information about your device when you are having technical problems.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap General management > Report diagnostic info.
- Read the consent information, and then tap Yes to enable this feature or tap No thanks.

### Reset

Reset device and network settings. You can also reset your device to its factory defaults.

## **Reset Settings**

You can reset your device to its factory default settings, which resets everything except the security, language, and account settings.

Personal data is not affected.

- From a Home screen, tap (##) Apps > ( Settings.
- Tap General management > Reset > Reset settings.
- 3. Tap **Reset settings**, and confirm when prompted.

## **Reset Network Settings**

You can reset Wi-Fi, Mobile data, and Bluetooth settings with Reset network settings.

- 1. From a Home screen, tap **# Apps > Settings**.
- 2. Tap General management > Reset > Reset network settings.
- 3. Tap **Reset settings**, and confirm when prompted.

# Factory Data Reset

You can reset your device to factory defaults, erasing all data from your device.

This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files. Any data stored on an external SD card is not affected.

**Note:** When you sign in to a Google Account on your device, Factory Reset Protection is activated. This protects your device in the event it is lost or stolen. For more information, see <u>"Factory Reset Protection" on page 24.</u>

If you reset your device to factory default settings with the Factory Reset Protection (FRP) feature turned on, you must enter the user name and password for a registered Google Account to regain access to the device. You will not be able to access the device without the correct credentials.

**Warning**: If you reset your Google Account password, it can take 24 hours for the password reset to sync with all devices registered to the account.

#### Before resetting your device:

- Verify that the information you want to keep has transferred to your storage area.
- Log in to your Google Account and confirm your user name and password.

#### To reset your device:

- From a Home screen, tap (##) Apps > ( Settings.
- 2. Tap General management > Reset > Factory data reset.
- 3. Tap **Reset device** and follow the prompts to perform the reset.
- 4. When the device restarts, follow the prompts to set up your device.

# Software Update

Check for and install available software updates for your device.

- 1. From a Home screen, tap (III) Apps > 🐼 Settings.
- 2. Tap Software update for the following options:
  - Check for update: Check for software updates.
  - Check software version: Check the version number for the software installed on your device.

# Lock Screen and Security

Secure your device and protect your data with Lock Screen and Security settings.

# Set a Screen Lock

It is recommended that you secure your device using a Screen lock. Options vary based on the screen lock type.

- Tap Lock screen and security > Screen lock type to select a screen lock and level of security:
  - Swipe: Swipe the screen to unlock it. This option provides no security.
  - Pattern: Create a pattern that you draw on the screen to unlock your device. This option provides medium security.
  - PIN: Select a PIN to use for unlocking the screen. This option provides medium to high security.
  - Password: Create a password for unlocking the screen. This
    option provides high security.
  - None: Do not lock the screen.
- Select your notification preferences, if you choose a secured lock screen option:
  - Tap On/Off to enable or disable showing notifications on the lock screen.
  - **Hide content**: Enable to hide the content of notifications.
  - Notification icons only: Enable to hide notification details and show only the icon.

- 4. Choose a screen lock option:
  - Info and app shortcuts: Display a dual clock, owner information, or app shortcuts on the Lock screen.
  - Notifications on lock screen: Show notifications on the Lock screen.
  - Secure lock settings: Set your secure lock functions such as Secured lock time and Smart lock. This option is not available with Swipe.

### Find My Mobile

Protect your device from loss or theft allowing your device to be locked, tracked, and for your data to be deleted remotely. You must sign up for a Samsung account and enable Google location service to use Find My Mobile.

- ► To access your device remotely, visit findmymobile.samsung.com.
- From a Home screen, tap ( Apps > Settings.
- 2. Tap Lock screen and security > Find My Mobile.
- Enter your Samsung account password or, if you are not logged in to your Samsung account, tap Add account and follow the prompts. The following options are available:
  - Remote controls: Activate or deactivate Remote controls, which allows you to access your device remotely.
  - Google location service: Activate or deactivate Google location service. This service must be on in order to find your device.

 SIM change alert: Prevent unauthorized changes to your SIM card by being alerted whenever an app or service attempts to change data on your SIM card.

#### **Unknown Sources**

Enable installation of non-Google Play applications.

- 1. From a Home screen, tap (iii) Apps > 📀 Settings.
- Tap Lock screen and security > Unknown sources to enable this option.

**Warning**: Enabling installation of third-party applications can cause your device and personal data to be more vulnerable to attacks by unknown sources.

#### Secure Folder

Lock your private content and apps to enhance security. You must sign in to your Samsung account in order to use Secure Folder. You must also set a secure lock for your device.

- 1. From a Home screen, tap (III) Apps > (Settings.
- Tap Lock screen and security > Secure Folder and follow the prompts to secure content on your device.

#### Secure Startup

Protect your device by requiring a numeric PIN or password to be entered before it starts up. You must have a secured screen lock for this option to be available.

- 1. From a Home screen, tap (III) Apps > 🚫 Settings.
- Tap Lock screen and security > Secure startup and select an option.

### **Encrypt SD Card**

Require a numeric PIN or password to decrypt your optional memory card (not included) when you first access it after powering on your device.

- 1. From a Home screen, tap (III) Apps > 📀 Settings.
- Tap Lock screen and security > Encrypt SD card.
- Tap Encrypt SD card and follow the prompts to encrypt all data on your memory card.

### Set Up SIM Card Lock

Require your SIM card PIN to unlock and use your SIM card.

- From a Home screen, tap (■ Apps > ♠ Settings.
- Tap Lock screen and security > Other security settings > Set up SIM card lock and follow the prompts.

- 3. Tap **Lock SIM card** to enable the feature.
- 4. Tap Change SIM card PIN to create a new PIN.

#### **View Passwords**

Display password characters briefly as you type them.

- From a Home screen, tap Apps > Settings.
- Tap Lock screen and security > Other security settings > Make passwords visible to turn the feature on.

### Security Update Service

Automatically receive security updates.

- From a Home screen, tap (##) Apps > ( Settings.
- 2. Tap Lock screen and security > Other security settings for the following Security update service options:
  - Security policy updates: Automatically or manually check for security policy updates.
    - Automatic updates can also be limited to only when your device is connected to a Wi-Fi network.
  - Send security reports: Use Wi-Fi to send security reports to Samsung for threat analysis.

#### **Device Administration**

Manage your device administrators and application installation privileges.

- From a Home screen, tap Apps > Settings.
- Tap Lock screen and security > Other security settings > Device administrators.
  - Tap Android Device Manager to allow it to lock or erase a lost device.

### **Credential Storage**

Manage your security certificates. If a certificate authority (CA) certificate gets compromised or for some other reason you do not trust it, you can disable or remove it.

- From a Home screen, tap ( Apps > Settings.
- Tap Lock screen and security > Other security settings for the following Credential storage options:
  - Storage type: Select a storage location for credential contents.
  - View security certificates: Display certificates in your device's ROM and other certificates you have installed.
  - User certificates: View user certificates.

- Install from device storage: Install a new certificate from storage.
- Clear credentials: Erase the credential contents from the device and reset the password.

### **Advanced Security Settings**

Use these options to configure advanced security settings.

- 1. From a Home screen, tap **\*\*\*\* Apps > \*\*\* Settings**.
- Tap Lock screen and security > Other security settings for the following advanced options:
  - Trust agents: Perform selected actions when trusted devices are connected.
    - To view Trust agents, set up a secured screen lock (Password, PIN, or Pattern). For more information, see "Set a Screen Lock" on page 172.
  - Pin windows: Pin an app on your device screen, preventing access to other features of your device.
  - Usage data access: View the applications that can access your device's usage history.
  - Notification access: View the applications that can access notifications you receive on your device.
  - Do not disturb permission: View which apps have permission to change the Do not disturb settings.

### Accounts

Set up and manage accounts, including your Google Account, Samsung account, email, and social networking accounts.

### Samsung Cloud

Keep your data safe by backing up and restoring your device. You can also sync your data from multiple devices.

- 1. From a Home screen, tap **# Apps > Settings**.
- 2. Tap Cloud and accounts > Samsung cloud.
  - If a Samsung account has not been added, tap Add account and follow the prompts.
- Once a Samsung account is configured, the following options are available:
  - Cloud usage: View how much cloud storage your data is using.
  - Sync settings: Tap the following items to enable or disable syncing:
    - Contacts (Samsung account): Sync contact info.
    - Calendar (Samsung account): Sync your events and tasks.
    - Internet: Sync bookmarks, saved pages, and opened tabs from your browser.
    - Keyboard data: Sync predictive text data.
  - Back up my data: Choose which content from your device to back up to the cloud. Tap Auto back up to automatically back up your data every 24 hours.
  - Restore: Choose the device that you have recently backed up and the backup package that you want to restore.

#### More options:

- Sync now: Sync all selected settings for your Samsung account.
- Network settings: Limit syncing data from your Samsung account to only when the device is connected to a Wi-Fi network.
- Remove account: Remove your Samsung account.
- Contact us: Contact Samsung.
- FAQ: Launch the Samsung help web site to view additional information based on frequently asked questions.

#### **Accounts**

Configure email, social networking, and other supported accounts.

#### Add an Account

You can add and manage all your email, social networking, and picture and video sharing accounts.

- 1. From a Home screen, tap **Apps** > **Settings**.
- 2. Tap Cloud and accounts > Accounts > (+) Add account.
- 3. Tap one of the account types.
- Follow the prompts to enter your credentials and set up the account.

#### Synchronize Accounts

You can synchronize your calendar, contacts, and other types of accounts.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Cloud and accounts > Accounts > [Account type].
- 3. Tap an account to view the sync settings for that account.
- 4. Tap individual data items to sync.
- 5. Tap More options > Sync now to synchronize the account.

#### **Account Settings**

Each account has its own set of settings. In addition, you can configure common settings for all accounts of the same type.

Account settings and available features vary between account types and service providers. Contact your service provider for more information on your account's settings.

- 1. From a Home screen, tap **# Apps** >  **Settings**.
- Tap Cloud and accounts > Accounts > [Account type].
- 3. Tap an account to configure that account's sync settings.
- 4. Tap other available options for the account type.

#### Remove an Account

You can remove accounts from your device.

- From a Home screen, tap ( Apps > Settings.
- Tap Cloud and accounts > Accounts > [Account type].
- 3. Tap the account and then tap More options > Remove account.

### **Backup and Restore**

Back up your data to your Samsung or Google accounts.

#### Samsung Account

Enable backup of your information to your Samsung account.

- 1. From a Home screen, tap (III) Apps > (2) Settings.
- 2. Tap Cloud and accounts > Backup for options:
  - Back up my data: Enable back up of your phone log, messages, and more through your Samsung account.
  - Restore: Use your Samsung account to restore your backup data.

#### Google Account

Enable backup of your information to your Google account.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Cloud and accounts > Backup for options:
  - Back up my data: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
  - Backup account: Select a Google Account to be used as your backup account.
  - Automatic restore: Enable automatic restoration of settings from Google servers. When enabled, backed-up settings are restored when you reinstall an application.

### **Google Settings**

Configure your device's Google settings.

#### **Customize Google**

To customize your Google settings:

- From a Home screen, tap (Ⅲ) Apps > (☼) Settings.
- 2. Tap **Google**, and select an option to customize:
  - Location: Configure your Google location settings.
  - Security: Configure the Android Device Manager and apps security settings.

- Ads: Configure your Google advertising profile.
- App preview messages: Receive and reply to messages sent from messaging apps that are not installed on your device.
- Nearby: Use your device's sensors to connect with nearby devices.
- Search & now: Configure your Google search settings and Google Now settings.
- Set up nearby device: Set up another device using Wi-Fi and Bluetooth.

## Accessibility

Accessibility services are special features that make using the device easier for those with certain physical disabilities.

#### **Vision**

You can turn on Accessibility features to assist with visual aspects of the device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Accessibility** > **Vision**, and tap an option:
  - Voice Assistant: Give spoken feedback to assist blind and low-vision users.
    - Voice Assistant can collect all of the text you enter, except passwords, including personal data and credit card numbers. It may also log your user interface interactions with the device.
  - Voice Assistant help: View help on using Voice Assistant.
  - Dark screen: Keep the screen turned off at all times for privacy.
  - Rapid key input: Release your finger to enter selection instead of double tapping.
  - Speak passwords: Read the characters aloud as you enter your passwords.
  - Text-to-speech: Set your preferred TTS engine and options.
     For more information, see <u>"Text-to-Speech Options" on page 166.</u>
  - Accessibility shortcut: Quickly enable accessibility features in two quick steps.
  - Font size: Set the font size.

- **High contrast fonts**: Adjust the color and outline of fonts to increase the contrast with the background.
- High contrast keyboard: Adjust the size of the Samsung keyboard and change its colors to increase the contrast between the keys and the background.
- Show button shapes: Show buttons with shaded backgrounds to make them stand out.
- Magnification gestures: Use exaggerated gestures such as triple-tapping, double pinching, and dragging two fingers across the screen
- Color inversion: Reverse the display of colors from white text on a black background to black text on a white background.
- Color correction: Adjust the color of the screen if you are color blind or have difficulty reading the display because of the screen color.

### Hearing

You can turn on Accessibility features to assist with audio aspects of the device.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap **Accessibility** > **Hearing**, and tap an option:
  - Flash notification: Set your camera light to blink whenever you receive a notification.
  - Turn off all sounds: Turn off all notifications and audio for privacy.

- Hearing aids: Improve the sound quality for use with hearing aids.
- Samsung subtitles (CC): Use Samsung subtitles with multimedia files when available.
- Google subtitles (CC): Use Google subtitles with multimedia files when available.
- Left/right sound balance: Use the slider to set the left and right balance when using a stereo device.
- Mono audio: Switch audio from stereo to mono for use with one earphone.

### **Dexterity and Interaction**

You can turn on Accessibility features to assist with dexterity and interaction aspects of the device.

- 1. From a Home screen, tap (III) Apps > (2) Settings.
- 2. Tap **Accessibility** > **Dexterity and interaction**, and tap an option:
  - Universal switch: Control your device with your customized switches.
  - Assistant menu: Improve the device accessibility for users with reduced dexterity.
  - Press and hold delay: Select a time interval for this action.
  - Interaction control: Block areas of the screen from touch interaction. Disable auto screen rotation and hard key functions. Only show application notifications in the Notification panel and the Status bar.

### More Accessibility Settings

Customize additional accessibility features for your device.

- From a Home screen, tap (##) Apps > ( Settings.
- 2. Tap Accessibility, and tap an option:
  - Direct access: Open your accessibility settings by pressing the Home key quickly three times in succession.
  - Notification reminder: Beep at set intervals to remind you of any unread notifications.
  - Answering and ending calls: Select shortcuts for answering and ending calls.
  - Single tap mode: Dismiss or snooze alarms, calendar events, and timer alerts, and answer or reject incoming calls with a single tap.
  - Services: Additional accessibility apps may be downloaded from the Google Play store. Certain accessibility services you install may be configured here.

## Other Settings

Configure features on your device that make it easier to use.

### **Applications Settings**

You can download and install new applications on your device. Use Application manager settings to manage your downloaded and preloaded applications.

**Warning**: Because this device can be configured with system software not provided by or supported by Google or any other company, you operate this software at your own risk.

If you have disabled apps, you can choose whether to display them.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Applications.
- 3. If you have disabled applications:
  - Tap Menu at the top left of the screen.
  - Tap All apps, Enabled, or Disabled.
- 4. Tap More options for the following options:
  - Sort by size/name: Sort the apps by size or name.
  - Default applications: Choose or change apps that are used by default for certain features, like email or browsing the Internet.
  - App permissions: Control which apps have permissions to use certain features of your device.
  - Show/Hide system apps: Show or hide system (background) apps.
  - Apps that can appear on top: Choose apps that can run on top
    of other running apps.

- Change system settings: Select which apps can change system settings.
- Reset app preferences: Reset options that have been changed.
   Existing app data is not deleted.
- Tap an application to view and update information about the application. The following options are displayed:
  - Uninstall/Disable: Uninstall or disable the application.
     Preloaded apps can only be disabled.
  - Force stop: Stop an app that is misbehaving. Restart your device if stopping an app, process, or service causes your device to stop working correctly.
  - Mobile data: View mobile data usage.
  - Battery: View battery usage since the last full charge.
  - Storage: Manage the app's storage usage.
  - Memory: View memory usage.
  - **Notifications**: Configure notifications from the app.
  - Permissions: View permissions granted to the app for access to your device's information.
  - Set as default: Set the app as a default for a certain category of apps.

### **One-Handed Operation**

Change the screen layout to accommodate operating your device with one hand.

- From a Home screen, tap ( Apps > Settings.
- 2. Tap Advanced features > One-handed operation.
- 3. Tap **On/Off** to enable or disable the following:
  - Reduce screen size: Press the Home key three times in quick succession to reduce the size of the display.
  - One-handed input: Adjust the size and position of the keyboard and other input methods for easier input with one hand.

#### Other Features

Configure other useful features. For example, you can control certain device actions by picking up the device and by touching the screen with the palm of your hand or turning over the device.

- 2. Tap Advanced features.
- 3. Tap **On/Off** to enable each of the following:
  - Quick launch camera: Open the Camera by quickly pressing the Home key twice.

- Direct call: Call the contact whose call log, message, or contact details are currently on the screen by bringing the device close to your ear.
- Smart alert: Set the device to vibrate when you pick it up to notify you about missed calls and messages.
- Easy mute: Mute sounds and video by covering the screen or turning over the device.
- Send SOS messages: Send a quick alert to your primary contacts when you are in an emergency situation by pressing the Power key quickly three times.
  - Send messages to: Add recipients by creating new contacts or selecting from Contacts.
  - Attach pictures: Send pictures to your emergency contacts.
  - Attach audio recording: Send a short audio message to your emergency contacts.
- Direct share: Share content with specific people directly using the sharing panel from within any app.

#### **About Device**

View information about your device, including current status, legal information, hardware and software versions, and more.

- From a Home screen, tap Apps > Settings.
- 2. Tap About device, and then tap items for more details:
  - Status: View the status of the battery, network, and other information about your device.
  - Legal information: View legal notices and other legal information, including your embedded Samsung legal information.
  - **Device name**: View and change your device's name.
  - Additional device information includes the Model number, Android version, Build number, and more.
