Important Warranty Information Regarding Television Format Viewing

Wide screen format LED Displays with aspect ratios of 16:9 (the ratio of the screen width to screen heighth) are primarily designed to display wide screen format full-motion video. The images displayed on them should primarily be in the wide screen 16:9 ratio format, or expanded to fill the screen if your model offers this feature and the images are constantly moving. Displaying stationary graphics and images on screen, such as the dark sidebars on non- expanded graphics and images on screen, such as the dark slidebars on hori- expanded standard format television video and programming, should be limited to no more than 5% of the total television viewing per week. Additionally, viewing other stationary images and text such as stock market crawls, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions. Displaying stationary images that exceed the above guidelines can cause uneven aging of LED Displays that leave subtle, but permanent burned-in ghost images in the LED picture. To avoid this, vary the programming and images, and primarily display full Fo avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On LED mode that offer picture sizing features, use these controls to view different formats as a full screen picture. Be careful in the selection and duration of television formats you use for viewing. Uneven LED aging as a result of format selection and use, as well as burned-in images, are not covered by your Samsung

SAMSUNG ELECTRONICS NORTH AMERICAN LIMITED WARRANTY

Subject to the requirements, conditions, exclusions and limitations of the original Subject to the requirements, continons, exclusions and initiations or the original Limited Warranty supplied with Samsung Electronics (SAMSUNG) products, and the requirements, conditions, exclusions and limitations contained herein, SAMSUNG will additionally provide Warranty Repair Service in the United States on SAMSUNG products purchased in Canada, and in Canada on SAMSUNG products purchased in the United States, for the warranty period originally specified, and to the Original

Purchaser only.

The above described warranty repairs must be performed by a SAMSUNG Authorized Service Center. Along with this Statement and the Original Limited Warranty Statement, a dated Bill of Sale as Proof of Purchase must be presented to the Service Center. Transportation to and from the Service Center is the responsibility of the purchaser. Conditions covered are limited only to manufacturing defects in material or workmanship, and only those encountered in normal use of the product. Exclusions include, but are not limited to, any originally specified provisions for in-home or on-site services, minimum or maximum repair times, exchanges or replacements, accessories, options, upgrades, or consumables.

For the location of a SAMSUNG Authorized Service Center, please call toll-free:

In the Linited States: 1:800-SAMSUNG (1:800-726-7864)

In the United States: 1-800-SAMSUNG (1-800-726-7864) - In Canada: 1-800-SAMSUNG

Still image warning

Avoid displaying still images (such as jpeg picture files) or still image elements (such as TV channel logos, panorama or 4:3 image format, stock or news bars at screen bottom etc.) on the screen. Constant displaying of still pictures can cause ghosting o LED screen, which will affect image quality. To reduce risk of this effect, please follow below recommendations:

- Avoid displaying the same TV channel for long periods.
 Always try to display any image on full screen, use TV set picture format menu for
- · Reduce brightness and contrast values to minimum required to achieve desired
- reduced brightness and outlast values in illuminary required to achieve desire picture quality, exceeded values may speed up the burnout process.
 Frequently use all TV features designed to reduce image retention and screen

burnout, refer to proper user manual section for details Securing the Installation Space

Keep the required distances between the product and other objects (e.g. walls) to ensure proper ventilation.

Failing to do so may result in fire or a problem with the product due to an increase in When using a stand or wall-mount, use parts provided by Samsung Electronics

 If you use parts provided by another manufacturer, it may result in a problem with the product or an injury due to the product falling.

The appearance may differ depending on the product.

Be careful when you contact the TV because some parts can be somewhat hot.

Installing batteries (Battery size: AAA)

 Use the remote control within 23 feet from TV. · Bright light may affect the performance of the remote control.

Avoid use when nearby fluorescent lights or neon signs. • The Color and shape may vary depending on the model.

Warning! Important Safety Instructions

Please read the safety instructions below before installing and using the product.

CAUTION

SHOCK DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER ALL SERVICING TO QUALIFIED PERSONNEL.

This symbol indicates that important literature concerning operation and maintenance has been included with this product.

- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus, and to protect it from overheating, these slots and openings must never be blocked or covered - Do not cover the slots and openings with a cloth or other materials.
- Do not block the slots and openings by placing this apparatus on a bed, sofa, rug or other similar surface
- Do not place this apparatus in a confined space, such as a bookcase or built-in cabinet, unless proper ventilation is provided. • Do not place this apparatus near or over a radiator or heat register, or where it is exposed to direct sunlight.
- Do not place a vessel containing water (vases etc.) on this apparatus, as this can result in a risk of fire or electric shock. • Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool etc.). If this apparatus accidentally gets wet, unplug it and contact an authorized dealer immediately.
- Make sure to pull out the power cord from the outlet before cleaning. • This apparatus use batteries. In your community, there might be regulations that require you to dispose of these batteries properly to protect
- the environment. Please contact your local authorities for disposal or recycling information. • Do not overload wall outlets, extension cords, or adaptors beyond their capacity, since this can result in fire or electric shock.
- Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at the plug end, where connected to adaptors, and at the point where they exit from the apparatus.
- To protect this apparatus from a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges.
- Before connecting the AC power cord to the DC adaptor outlet, make sure the voltage designation of the DC adaptor corresponds to the local electrical supply. (depending on the model)
- Never insert anything metallic into the open parts of this apparatus. Doing so may create a danger of electric shock. • To avoid electric shock, never touch the inside of this apparatus. Only a qualified technician should open this apparatus.
- Make sure to plug the power cord in until it is firmly inserted. Pull on the plug, not the cord, when removing the power cord from the outlet. Do
- If this apparatus does not operate normally in particular, if there are any unusual sounds or smells coming from it unplug it immediately and
- Be sure to pull the power plug out of the outlet if the TV is to remain unused or if you are to leave the house for an extended period of time (especially when children, elderly or disabled people will be left alone in the house). - Accumulated dust can cause an electric shock, an electric leakage, or a fire by causing the power cord to generate sparks and heat,
- or cause the insulation to deteriorate • Be sure to contact an authorized service center, when installing your set in a location with heavy dust, high or low temperatures, high humidity, chemical substances or where it will operate for 24 hours a day such as in an airport, a train station, etc. Failure to do so may cause serious
- Use only a properly grounded plug and receptacle.

damage to your set.

- An improper ground may cause electric shock or equipment damage. (Class I Equipment only.) • To turn off the apparatus completely, you must pull the power plug out of the wall socket. Consequently, the power plug should be readily accessible at all times
- Do not allow children to hang onto the product.
- Store the accessories (batteries, etc.) in a location safely out of the reach of children.
- Do not install the product in an unstable location such as a shaky self, a slanted floor, or a location exposed to vibration.
- Do not drop or impart a shock to the product, If the product is damaged, disconnect the power cord and contact a service center.
- To clean the product, unplug the power cord from the power outlet and wipe the product using a soft cloth dipped in a small amount of water Do not use any chemicals such as wax, benzene, alcohol, thinners, insecticide, air freshener, lubricant or detergent. This may damage the
- appearance or erase the printing on the product. Do not expose the apparatus to dripping or splashing.
- Do not dispose of batteries in a fire.
- Do not short circuit, disassemble, or overheat the batteries
- There is a danger of explosion if you replace the batteries with the wrong type of battery. Replace only with the same or equivalent type. • WARNING - TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES OR OTHER OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES.

while your TV is turned on. It may

Since the necessary clamps, screws, and string are not supplied. please purchase these additionally.

1. Drive the screws into the clamps and firmly fasten them onto the wall Make sure the screws are firmly fixed into the wall

2. Remove the screws from the back center of the TV, put the screws into the clamps, and then fasten the screws onto the TV again.

3. Connect the clamps fixed onto the TV and the clamps fixed onto the wall with a strong cable and then tie the string tightly.

connections for any sign of fatique or failure. If you have any doubt

about the security of your connections, contact a professional Install the TV close to the wall so that it does not fall.

 igotimes It is safe to connect the string so that the clamps fixed on the wall are equal to or lower than the clamps fixed on the TV. Until the string before moving the TV.

Kensington Lock

The Kensington Lock is not supplied by Samsung. It is a device used to physically fix the system when using it in a public place. Refer to the manual provided with the Kensington Lock for additional information on

Please find a "⋒" icon on the rear of the TV. The Kensington slot is beside the "⋒" icon.

The position and color may differ depending on the model.

Troubleshooting

[UH5003-ZC]BN68-05829Q-01ENG.indb 2

Problem	Possible Solution If your Samsung Television is flickering or dimming sporadically, you may need to disable some of its energy efficient features like the Energy Saving feature. If you follow below step with your remote, you can turn these features off or on. • Energy Saving : MENU → Setup → Eco Solution → Energy Saving		
Flickering and Dimming			
Component Connections / Screen Color	If you find that the color on your Samsung television's screen is not correct or black and White, first run a Self Diagnosis on the TV to make sure there are no device issues. • Self Diagnosis: MENU → Support → Self Diagnosis → Picture Test If the test is ok, try making sure: • Your connections are all consistent. For example, if you've used the AV In jack on your TV, make sure you have used the AV Out jack on your video source. • Ty making sure you have connected to the correct jacks. For example, if you use the Component jacks, labeled Pb, Pr, and Y, to connect your TV and video source, make sure you have connected the blue Pb jack on the video source to the blue Pb jack on the TV, the red Pr jack on the source to the red Pr jack on the TV.		
Screen Brightness	If you find that the colors on your Samsung TV are correct but just a little too dark or bright, there are some settings you should check before calling for a repair. Backlight, Contrast, Brightness, Sharpness, Color, Tint (G/R) and so on. Go in to "Picture" on user Menu then try adjusting options mentioned above.		
Unwanted Powering off	If your Samsung TV appears to turn off by itself, there may be an issue with either your Timer settings or your Eco friendly No Signal Power Off feature. First make sure you Sleep Timer is not accidentally set. The sleep timer allows you the comfort of falling asleep with the TV still on but, turns it off after a certain period of time so as not to waste energy. Sleep Timer: MENU → Setup → Time → Sleep Timer If the Sleep Timer is not activated, you may have engaged the No Signal Power Off or Auto Power Off feature. No Signal Power Off: MENU → Setup → Eco Solution → No Signal Power Off Auto Power Off: MENU → Setup → Eco Solution → Auto Power Off		
Trouble Powering On	Before Turn on check red light on the right or left bottom of your TV. Press power on button on TV or remote and it will blink about 5 times before turning on. If you find that you are having trouble powering on your Samsung television, there are a number of things to check before making a call to the service department. If you happen to be using the TV as a monitor and the stand-by light only blinks for a few seconds when you press the power button, your PC is in sleep mode. To take your PC out of sleep mode, press a key on your keyboard or move the mouse. Then try turning your TV on. If you're sure your power cord, remote control, and PC are functioning properly, you may be having a cable issue. If you have a cable or satellite box, your TV may appear to be off because the cable or satellite box is not outputting a signal. To test the signal output of your cable or satellite box, press the guide or info button on the cable or satellite box remote control. If the screen displays the guide or info data, the problem is caused by the box.		
Stand Assembly	If you have any trouble to assemble the stand though you refer to "Install the Stand" mentioned at separate guide.		
Cannot find channel	Re-run plug and play.		
Poor picture	First, perform the Picture Test and to see if your TV is properly displaying the test image. Go to MENU - Support - Self Diagnosis - Picture Test If the test image is properly displayed, the poor picture may be caused by the source or signal.		
The TV image does not look as good as it did in the store.	If you have an analog cable/satellite box, upgrade to a digital set top box. Use HDMI or Component cables to deliver HD (hig definition) picture quality. Cable/Satellite subscribers: Try HD channels from the channel line up. Air/Cable Antenna connection: Try HD channels after performing Auto program. Many HD channels are up scaled from SD(Standard Definition) contents. • Adjust the Cable/Set top box video output resolution to 1080i or 720p.		
The picture is distorted: macroblock error, small block, dots, pixelization.			
Color is wrong or missing.	If you're using a component connection, make sure the component cables are connected to the correct jacks. Incorrect or loose connections may cause color problems or a blank screen.		
There is poor color or brightness.	Adjust the Picture options in the TV menu. (Go to Picture Mode / Color / Brightness / Sharpness) Adjust the Energy Saving option in the TV menu. (Go to MENU - Setup - Eco Solution - Energy Saving) Try resetting the picture to view the default picture setting. (Go to MENU - Picture - Picture Reset)		
There is a dotted line on the edge of the screen.	If the picture size is set to Screen Fit, change it to 16:9. Change the cable/satellite box resolution.		

The picture is black and white. If you are using an AV composite input, connect the video cable (yellow) to the Green jack of component input 1 on the TV. • If connected to a cable box, please try to reset it. (Reconnect the AC cord and wait until the cable box reboots. It may take Set the output resolution of the cable box to 1080i or 720p. Sound Problem First of all, please perform the **Sound Test** to confirm that your TV audio is properly operating. (Go to MENU - Support - Self Diagnosis - Sound Test) If the audio is OK, the sound problem may caused by the source or signal. There is no sound or the sound is too low at | Please check the volume of the device (Cable/Sat Box, DVD, Blu-ray, etc.) connected to your TV. Reboot the connected device by reconnecting the device's power cable. The speakers are making an inappropriate • Check the cable connections. Make sure a video cable is not connected to an audio input. • For Antenna or Cable connections, check the signal information. A weak signal may cause sound distortion. • Perform the **Sound Test** as explained above. No Picture, No Video The TV will not turn on Make sure the AC power cord is securely plugged into the wall outlet and the T Make sure the wall outlet is working. Try pressing the POWER button on the TV to make sure the problem is not the remote. If the TV turns on, refer to 'Remote control does not work' below. The TV turns off automatically. • Ensure the Sleep Timer is set to Off in the Time menu If your PC is connected to the TV, check your PC power settings Make sure the AC power cord is plugged in securely to the wall outlet and the TV. When you are watching TV connected to an antenna or cable connection, the TV will turn off after 10 - 15 minutes if there There is no picture/video • Check the cable connections. (Remove and reconnect all cables connected to the TV and external devices). Set your external devices' (Cable/Sat Box, DVD, Blu-ray etc) video outputs to match the connections to the TV input. For example, if an external device's output is HDMI, it should be connected to an HDMI input on the TV. Make sure your connected devices are powered on.
 Be sure to select the TV's correct source by pressing the SOURCE button on the remote control. Report the connected device by reconnecting the device's nower cable. RF(Cable/Antenna) Connection Make sure the coaxial cable is connected securely.
 Please try Auto Program to add available channels to the channel list.
go to MENU - Channel - Auto Program then select Auto and make sure the correct Cable TV signal type is set in the menu. There are 3 options. (STD, HRC and IRC) Verify the antenna is positioned correctly. No Caption on digital channels. • Check the Caption Setup menu. Try changing Caption Mode Service1 to CC1. The picture is distorted: macroblock, error,

• Compression of video contents may cause picture distortion. Especially on fast moving pictures such as sports and action small block, dots, pixelization. A weak signal can cause picture distortion. This is not a TV problem Others Purple/green rolling horizontal bars and buzzing noise from the TV speakers with Remove the left and right audio connections from the set-top-box. If the buzzing stops, this indicates that the set-top-box has a grounding issue. Replace the Component video cables with an HDMI connection. Component cable connection. The nicture will not display in full screen HD channels will have black hars on either side of the screen when displaying up scaled SD (4:3) contents. Black bars on the Top & Bottom will be shown on movies that have aspect ratios different from your TV. Adjust the picture size option on your external device or change the TV to full screen. The remote control does not work. Replace the remote control batteries with correct polarity (+/- Clean the transmission window located on the top of the remote control Try pointing the remote directly at the TV from 5~6 feet away. Program the Cable/Set top box remote control to operate the TV. Refer to the Cable/Set top box user manual for the does not turn the TV on or off, or adjust the volume. A "Mode Not Supported" message Check the supported resolution of the TV and adjust the external device's output resolution accordingly. Refer to resolution

You cannot select Caption in the TV menu when watching content from a device connected via HDMI or Component.
 Caption must be activated on the external device.

This smell is normal and will dissipate over time.

TV **Signal Strength** is unavailable in the **Self Diagnosis** Test menu. This function is only available for digital channels from an Antenna / RF / Coax connection TV is tilted to the right or left side. Remove the stand base from the TV and reassemble it The Channel menu is greyed out he Channel menu is only available when you select the TV source. If TV is in the **Store Demo** mode, it will reset audio and picture settings every 5 minutes. Please change from **Store Demo** mode to **Home Use** mode using the **Plug & Play** procedure. Press the SOURCE button to select TV mode, go to MENU **Setup** \rightarrow **Plug & Play** \rightarrow ENTER \Box *. Your settings are lost after 5 minutes or every time the TV is turned off. You have intermittent loss of audio or video. Check the cable connections and reconnect them Loss of audio or video can be caused by using overly rigid or thick cables. Make sure the cables are flexible enough for long term use. If mounting the TV to the wall, we recommend using cables with 90 degree connectors. You see small particles when you look closely at the edge of the frame of the TV. This is part of the product's design and is not a defect. POP (TV's internal banner ad) appears on Select **Home Use** under **Plug & Play** mode. For details, refer to **Plug & Play** (Initial Setup).

🦠 This TFT LED panel uses a panel consisting of sub pixels which require sophisticated technology to produce. However, there may be a few bright or

dark pixels on the screen. These pixels will have no impact on the performance of the product. Watch these troubleshooting on video at www.samsung.com/spsn.

Some functions and pictures shown in this manual are available on specific models only. Solution (Samsung Community)
