CAUTION

To prevent electric shock and blade exposure, do not use this polarized AC plug with an extension cord, receptacle or other outlet unless the blades can be fully inserted.

- Operate the TV only on 110-240 V AC (U.S.A./Canada 120 V AC)
- Avoid operating the TV at temperatures below 41°F (5°C).
- Some people may experience discomfort (such as eye strain, fatigue, or nausea) while watching 3D video images or playing stereoscopic 3D games. Sony recommends that all viewers take regular breaks while watching 3D video images or playing stereoscopic 3D games. The length and frequency of necessary breaks will vary from person to person. You must decide what works best. If you experience any discomfort, you should stop watching the 3D video images or playing stereoscopic 3D games until the discomfort ends; consult a doctor if you believe necessary. You should also review (i) the instruction manual of any other device or media used with this television and (ii) our website (www.sony.com/tvsupport) for the latest information. The vision of young children (especially those under six years old) is still under development. Consult your doctor (such as a pediatrician or eye doctor) before allowing young children to watch 3D video

images or play stereoscopic 3D games. Adults should supervise young children to ensure they follow the recommendations listed above.

- Do not use, store, or leave the 3D Glasses or the battery near fire, or in places with a high temperature, e.g., in direct sunlight, or in sun-heated cars.
- When using the simulated 3D function, please note that the displayed image is modified from the original due to the conversion done by this television.

Four Steps to a Full HD Experience

Set, Source, Sound, and Setup.

1 Set

Now that you have made the best selection in LCD TV technology, be sure to remove all accessory contents from the packaging before setting up your TV.

2 Source

To experience the stunning detail of your **BRAVIA** TV, you need access to HD programming.

- Upgrade your signal or content source to high-definition (HD) by contacting your HD service provider.

- Receive over-the-air HD broadcasts with an HD-quality antenna connected directly to the back of your TV.
  Visit **www.antennaweb.org** for more information on antenna selection and setup.
- Discover the wealth of entertainment now available on super-high resolution Blu-ray Disc™ player and other Sony HD equipment.

3 Sound

Complete the high-definition experience with a **BRAVIA** Sync™ surround sound system or A/V receiver from Sony.

4 Setup

Install your TV and connect your sources. See page 9 for sample connection diagrams.

To help assure the highest quality for your HD experience, use Sony HDMI (High-Definition Multimedia Interface) cables.

To learn more about HDTV, visit:
U.S.A.: http://www.sony.com/HDTV
Canada: http://www.SonyStyle.ca/hd

This TV displays all video input signals in a resolution of 1,920 dots × 1,080 lines.

*4 These screws and spacers are required when installing an optional Wall-Mount Bracket. You must use these screws instead of the ones provided with the bracket for safety reasons. Be sure to keep them in a safe place until you are ready to use the Wall-Mount Bracket. See page 23 for the recommended Wall-Mount Bracket for your TV.

Inserting batteries into the remote control
1 Remove the protection sheet.

2 Push and slide the cover upward.

Guidelines for Remote Control

• Point your remote control directly at the IR sensor located on your TV.
• Make sure that no objects are blocking the path between the remote control and the IR sensor on your TV.
• Fluorescent lamps can interfere with your remote control; try turning off the fluorescent lamps.
• If you are having problems with the remote control, reinsert or replace your batteries and make sure that they are correctly inserted.
Programming the Remote Control

Your remote control can be programmed to use other equipment and is pre-programmed to operate the following Sony equipment.

Function Button	Sony Equipment	Code Number
DVD	DVD Player	31033
AMP	Receiver	52172
STB	Digital Satellite	01639

Programming Other Equipment

Follow the steps below to program your TV remote control.

1   Look for the code in the Manufacturer's Code List (refer to i-Manual) that corresponds to the equipment you would like to operate with the Sony remote control. If more than one code is provided, try programming the first code listed. If your equipment's code is not listed, visit http://esupport.sony.com/remotecodes for a more comprehensive list.

2   Press and hold a **DVD**, **AMP** or **STB** function button simultaneously with **INPUT** button and release. When in the programming mode, the function button (**DVD**, **AMP**, **STB**) blinks for approximately 30 seconds until a code is entered.

3   Enter the five digit code using ⬚0⬚ - ⬚9⬚ while the function buttons (**DVD**, **AMP**, **STB**) are lit. If the code is not entered within 30 seconds, you must repeat step 2.

4   Press ⊕ or **ENT** to confirm the code. If successfully programmed, the function button (**DVD**, **AMP**, **STB**) will blink twice, if not, it blinks five times.

Confirm the Programming

If you can turn your equipment on and off using the green **POWER** button, the programming is complete. If not, try the next code listed.

✍

• In some cases, you may not be able to program your remote control. If this is the case, use your equipment's own remote control.
• Any of the function buttons (**DVD**, **AMP**, **STB**) can be programmed to operate other equipment regardless of the labeling. For example, if programmed with the correct code, a Blu-ray Disc player can be operated with the **DVD** button. This is useful if your equipment does not match any of the labeled buttons.

## To reset the remote control to the factory default:

Press **SCENE**, **TV POWER**, and ⊕ simultaneously. The four function buttons (**DVD**, **AMP**, **STB**, and **TV**) blink when successfully reset.

Setting up your TV

Some TV models are packaged with a detached Table-Top Stand so you can mount your TV to a wall right away. If you are not mounting the TV to a wall, you will need to attach the Table-Top Stand. You will need a Phillips screwdriver and the supplied screws to complete the task. Look for the attachment instructions provided with the TV.
Be sure to consider the following while setting up your TV:
• Disconnect all cables when carrying the TV.
• Carry the TV with the adequate number of people; larger size TVs require two or more people.
• Correct hand placement while carrying the TV is very important for safety and to avoid damage.
• Ensure your TV has adequate ventilation, see page 16.
• For best picture quality, do not expose the screen to direct illumination or sunlight.
• Avoid installing the TV in a room with reflective wall and floor materials.
• If the TV is brought directly from a cold to a warm location, or is placed in a very damp room, or is placed in a room in which heating has just been turned on, moisture may condense on the surface or inside the TV. Should this occur, turn off the TV and leave the TV off until the moisture evaporates, and then the TV can be used. If you notice moisture condensation between the glass panel and the LCD, turn on the TV and the condensation will evaporate after the TV has warmed up.

6
Attaching the Table-Top Stand

Refer to the supplied Table-Top Stand instruction leaflet for proper attachment for some TV models.

✍
• Do not put stress on the LCD panel or the frame around the screen.
• Be careful to not pinch your hands or the AC power cord when you install the TV unit to the Table-Top Stand.

For KDL-52/46NX800 and KDL-46/40NX700

1 Gently slide the TV unit onto the Table-Top Stand and align the screw holes.

**2** Use the supplied screws to attach the TV unit to the Table-Top Stand.
✍
• If you use an electric screwdriver, set the tightening torque at approximately 1.5 N·m {15 kgf·cm}.
3 After all the screws are tighten cover the Table-Top Stand with the supplied Stand Rear Cover.

For KDL-55NX811, KDL-60/55/46NX810, KDL-46/40NX711 and KDL-46/40NX710

1 Align with the two dowels of the Table-Top Stand, and gently place the TV, checking the △ mark is facing the front.
2 Attach the TV and Table-Top Stand with the supplied screw and hexagon wrench.

✍
• Set the torque setting to approximately 3 N·m {30 kgf·cm}.

Reattaching the Table-Top Stand to the TV

Attach to the original position using the removed screws. See "Detaching the Table-Top Stand from the TV" (page 15).

Securing the TV

Sony strongly recommends taking measures to prevent the TV from toppling over. Unsecured TVs may topple and result in property damage, serious bodily injury or even death.

Preventing the TV from Toppling

• Secure the TV to a wall and/or stand.
• Do not allow children to play or climb on furniture and TV sets.
• Avoid placing or hanging items on the TV.
• Never install the TV on:
  – slippery, unstable and/or uneven surfaces.
  – furniture that can easily be used as steps, such as a chest of drawers.
• Install the TV where it cannot be pulled, pushed, or knocked over.
• Route all AC power cords and connecting cables so that they are not accessible to curious children.

Recommended Measures to Secure the TV

Consider the following measures when securing your TV to a TV stand (not supplied).

1 Secure the Stand for the TV.

Make sure the TV stand can adequately support the weight of the TV. Use two angle braces (not supplied) to secure the stand. For each angle brace use the appropriate hardware to:
• Attach one side of the angle brace to the wall stud.
• Attach the other side to the TV stand.
2 Secure the TV to the Stand.

Use the optional hardware listed below (not supplied):
• A machine screw (screwed into the TV's Table-Top Stand)
  For KDL-60NX801, KDL-60/52/46NX800 and KDL-46/40NX700
  Use M4 × 16 screw
  For KDL-55NX811, KDL-60/55/46NX810, KDL-46/40NX711 and KDL-46/40NX710
  Use M4 × 8 screw
• A screw or similar (attach it to the TV stand)
• Rope or chain (strong enough to support the weight of the TV). Make sure that there is no excess slack in the rope or chain.

An alternative way to secure the TV is with an optional Sony Support Belt Kit.

(Continued) **13**

✍
Contact Sony Customer Support to obtain the optional Support Belt Kit by providing your TV model name.

- For United States call: 1-800-488-7669 or visit: www.sony.com/accessories
- For Canada call: 1-877-899-7669

3 Anchor the TV to the Wall.

Anchor the TV to the wall by using bolts, wall anchor and chain (or rope).

✍

- KDL-60NX801, KDL-60/52/46NX800 and KDL-46/40NX700 are shipped with screws attached to the rear of the TV. (They are fastened in the screw holes for wall mounting.) Be sure to remove the upper two screws prior to anchoring the TV on a wall.
- Securing the TV to the stand without securing the TV and the stand to the wall provides minimum protection against the TV toppling over. For further protection, be sure to follow the three measures recommended.

Anchor bolts (not supplied)

Wall-mount holes

Rope or chain (not supplied)

Wall-anchor (not supplied)
Organizing the AC power cord

✍

- Do not bundle the AC power cord together with other cables.

For KDL-60NX801, KDL-60/52/46NX800 and KDL-46/40NX700

✍
- After the AC power cord is thread as illustrated, place the bottom cover (for NX801/800 series only).

For KDL-55NX811, KDL-60/55/46NX810, KDL-46/40NX711 and KDL-46/40NX710

14
Running initial setup

1 Complete your cable connections before proceeding with the **Initial Setup**.

Connect the TV to your nearest power outlet.

2 Check the **ENERGY SAVING SWITCH** setting is on (●).

3 Press ⏻ (POWER) on the TV. When you switch the TV on for the first time, the **Language** menu appears on the screen.

✍
• The TV image shown here may differ from your TV but the operation of your TV remains the same as indicated.

4 Follow the instructions on the screen.

✍
• The **ENERGY SAVING SWITCH** must be on (●) to set the clock and obtain program information for the TV Guide.
• **Home** mode sets the TV to display the settings optimized for home viewing (this setting is ENERGY STAR compliant).

5 Select **Continue** to scan for available channels and enable the **TV Guide On Screen**® feature. If you receive channels from a cable box or satellite receiver and do not wish to use the TV's built-in tuner, select **Skip**. Selecting **Skip** will disable the **TV Guide On Screen** feature, which is only available when the TV's tuner is used.

✍
• If you skip the channel scan while in the setup menus, TV Guide will be disabled.

Detaching the Table-Top Stand from the TV

Remove only the screws marked with ⬆ on the TV.

✍
• Do not remove the Table-Top Stand for any reason other than to install corresponding accessories on the TV.

For KDL-60NX801, KDL-60/52/46NX800 and KDL-46/40NX700

✍
• The NX801/NX800/NX700 series models must remove the stand rear cover prior to detaching the Table-Top Stand.
• When installing the TV on a wall, remove the four screws from the rear of the TV. (They are fastened in the screw holes for wall mounting.) Be sure to store the removed screws in a safe place, keeping them away from children (except KDL-46/40NX700).
• When attaching the Table-Top Stand again, be sure to fasten the four screws (previously removed) to the original holes on the rear of the TV (except KDL-46/40NX700).
For KDL-55NX811, KDL-60/55/46NX810, KDL-46/40NX711 and KDL-46/40NX710

Using a Wall-Mount Bracket

Your TV can be mounted on a wall using a Wall-Mount Bracket (not supplied) out of the box as packaged. Some larger size TV may require detaching the Table-Top Stand; see "Detaching the Table-Top Stand from the TV" (page 15).
Prepare the TV for the Wall-Mount Bracket before making cable connections.

For product protection and safety reasons, Sony strongly recommends that you use the Wall-Mount Bracket designed for your TV and the installation should be performed by a Sony dealer or licensed contractor.

- Follow the instruction guide provided with the Wall-Mount Bracket for your model. Sufficient expertise is required in installing this TV, especially to determine the strength of the wall for withstanding the TV's weight.
- Be sure to use the screws supplied with the Wall-mount bracket when attaching the mounting hooks to the TV set.
  The supplied screws are designed so that they are 8 mm to 12 mm in length when measured from the attaching surface of the mounting hook.
 The diameter and length of the screws differ depending on the Wall-mount bracket model. Use of screws other than those supplied may result in internal damage to the TV set or cause it to fall, etc.

Troubleshooting

The TV will indicate any problems with the **STANDBY** indicator flashing in red.

When the STANDBY indicator is flashing

The self-diagnosis function is activated.

1 Count how many times the **STANDBY** indicator flashes between each three second break.

For example, the indicator may flash three times, go off for three seconds, then flash again three times.

2 Press ⏻ (POWER) on the TV to turn it off, disconnect the AC power cord, and inform your dealer or Sony service center of how the indicator flashes (number of flashes).

When the STANDBY indicator is not flashing

1 Check the items in the tables below. (Also refer to "Troubleshooting" in the i-Manual.)

2 If the problem persists, contact Sony Customer Support (information provided on the front cover).

Condition	Explanation/Solution

How to Care for Your BRAVIA

Safety is very important, please read and follow the safety documentation (Safety Booklet) separately provided.

Unplug the TV and other connected equipment from the wall outlet before you begin cleaning your TV.

- Wipe the LCD screen gently with a soft cloth.
- Stubborn stains may be removed with a cloth slightly moistened with a solution of mild soap and warm water.
- If using a chemically pretreated cloth, please follow the instruction provided on the package.
- Never use strong solvents such as a thinner, alcohol or benzine for cleaning.
- Do not plug in the TV into the wall outlet until the moisture from cleaning has evaporated.

The TV should also be placed on a stable surface to prevent it from toppling over (see page 13). If you have young children or pets at home, check regularly to insure the TV is securely fastened.

This device complies with part 15 of the FCC rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received,
including interference that may cause undesired operation.

For customers in Canada

This Class B digital apparatus complies with Canadian
ICES-003.

FCC Related Information

This equipment has been tested and found to comply
with the limits for a Class B digital device, pursuant to
Part 15 of the FCC Rules. These limits are designed to
provide reasonable protection against harmful
interference in a residential installation. This
equipment generates, uses and can radiate radio
frequency energy and, if not installed and used in
accordance with the instructions, may cause harmful
interference to radio communications. However, there
is no guarantee that interference will not occur in a
particular installation. If this equipment does cause
harmful interference to radio or television reception,
which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the
interference by one or more of the following measures:
❑ Reorient or relocate the receiving antenna.
❑ Increase the separation between the equipment
and receiver.
❑ Connect the equipment into an outlet on a circuit
different from that to which the receiver is
connected.
❑ Consult the dealer or an experienced radio/TV
technician for help.

Pursuant to FCC regulations, you are cautioned that
any changes or modifications not expressly approved
in this manual could void your authority to operate
this equipment.

Safety and Regulatory

To prevent radio interference to the licensed service,
this device is intended to be operated indoors and away
from windows to provide maximum shielding.
Equipment (or its transmit antenna) that is installed
outdoors is subject to licensing.
Only use Wireless LAN indoors when using it with
IEEE 802.11a/n (5 GHz).
High power radars are allocated as primary users
(meaning they have priority) of 5250-5350 MHz and
5650-5850 MHz and these radars could cause
interference and/or damage to this device.
This device uses 5 GHz band for wireless LAN
communication and the maximum gain of the antenna
in this device is 6 dBi.

This equipment complies with FCC/IC radiation
exposure limits set forth for an uncontrolled
environment. This equipment should be installed and
operated with minimum distance 20 cm between the
radiator and your body (excluding extremities: hands,
wrists and feet).
This device and its antenna(s) must not be co-located or
operating with any other antenna or transmitter except
Grant condition.

Note

This television includes a QAM demodulator which should
allow you to receive unscrambled digital cable television
programming via subscription service to a cable service
provider. Availability of digital cable television programming
in your area depends on the type of programming and signal
provided by your cable service provider.
